BRAYLEY'S

FAMILY

Medical Almanac

—FOR—

1882

PUBLISHED BY

—J. W. BRAYLEY—

Wholesale Druggist,

481 ST. PAUL STREET, MONTREAL.

TO OUR READERS.

In again placing this Annual before the people of Canada, neither trouble nor expense has been spared to make it of even greater value than previous issues. Circulating as it does over the whole of this wide Dominion of Canada, it has become as "familiar as household words" in the homes of the people, from the storm beaten and fog covered coasts of Newfoundland, to the sunny shores of the Pacific slope, embracing, in the vast intervals between, the Maritime Provinces of Nova Scotia, New Brunswick and Prince Edward Island; the cities, farms and river-laved lands of Quebec; the many thriving towns and agricultural districts of Ontario, and the rapidly advancing Province of Manitoba, with those vast territories that lie to the North-West of the "Prairie Province."

In almost every home throughout the length and breadth of the Dominion, sickness, in one or the other of its invidious forms, will enter during the year 1887. That all may know exactly what remedies to avail themselves of, as well as just where to obtain them in time of need **Brayley's Almanac** is issued.

Thousands on thousands of copies in both the English and French languages have been every year distributed gratis, until **Brayley's Almanac**, owing to its reliable advice as to the proper remedies necessary to cure all cases of sickness, has come to be looked for by all as a valued and most welcome friend.

The greatest care is taken with the Astronomical and Meteorological calculations, which are made by a gentleman considered one of the best authorities as regards these sciences Canada has ever seen.

All the information and accuracy obtained in the costly Ephemerises and Nautical Almanacs issued by the British and American Governments, is herewith given to the public of Canada, free.

The Meteorological forecasts, as many of our readers have lived to prove, are entirely distinct from the miserable guesses which brought weather Almanacs into ridicule half-a-century ago, and are almost as reliable as the medicines which we advertise.

These are, in brief, as will be found more fully described in the pages which follow; **Dr. Wilson's Family Anti-Bilious and Preserving Pills**, the very best known remedy for the various troubles and derangements that attack the digestive and assimilative organs.

These organs must be attended to by every one, or else disease ensues, and to keep the people of Canada healthy and entirely free from such diseases, Dr. Wilson produced, and Mr. Brayley decided to place upon the market, these invaluable Anti-Bilious and Preserving Pills.

Diseases of the Chest and Lungs are unfortunately very prevalent in Canada, owing, doubtless, to its northern situation. To obviate the evils produced by such diseases **Dr. Wilson's Pulmonary Cherry Balsam** is a most invaluable remedy, as will be found by its description further on.

Children are the hope of a free country, and it is of vital importance that they be kept healthy, in order that a sound mind may grow in a sound body.

Of all juvenile ailments, not one is of greater frequency than that of Worms, and to get rid of this most disagreeable of disorders no medicine can possibly be of greater value and efficacy than **Wright's Vermifuge**. It has been found invaluable in a very large number of cases.

In a country like Canada, where out of door work is greatly prevalent, nothing is more common than those minor accidents which occur on the farm, in the fields, on river and lake, in the logging camp, or the hunting excursion.

Suffering, even in cases where the hurt is but slight, is often excruciating for a time, especially when no remedy is immediately at hand as a curative. This is beginning to be more widely understood, until now farmers, lumbermen and sportsmen alike provide themselves ere departing from the stores, with supplies of the best known remedy in such cases, viz.: **Dr. Dow's Sturgeon Oil Liniment**.

The most invidious diseases need a more powerful remedy than any of the foregoing to eradicate them from the system, and for such **Dr. Wilson's Tonic and Sarsaparilla Elixir** has been prepared. It is a wonderful medicine, and as such is fully described further on.

Another invaluable specific, more valuable to sufferers than the gold of Ophir, is **Dr. Wilson's Cramp and Pain Reliever**, useful both as an internal and external remedy.

The light of the body is effectually preserved, and in temporary or partial cases of blindness from inflammation, etc., fully restored by the use of **Roberts' Eye Water**, highly recommended as it is by medical practitioners in Canada.

Beside the above, mention in their proper places of the remainder of **Brayley's Proprietary Medicines** will be found in this most useful Annual. These other Medicines are, briefly: **Dr. Wilson's Persian Salve**, for all diseases of the skin; the wonderful **French Magnetic Oil**; **Hurd's Hair Vitalizer**, for restoring gray hair; **Dr. Wilson's Worm Lozenges** and **Dr. Wilson's Herbine Bitters**.

All these remedies are invaluable.

ECLIPSES.

In the year 1887, there will be four eclipses, two of the sun and two of the moon.

- I.—A partial eclipse of the moon, February 8th, visible in North America, beginning at 4 h. morn., and ending at 6 h. 03 m. morn., Montreal time.
- II.—An Annular Eclipse of the Sun, February 22nd, invisible in Canada ; visible in South America and the South Pacific Ocean.
- III.—A partial eclipse of the Moon, August 3rd, invisible in Canada.
- IV.—A total eclipse of the Sun, Aug. 19th, invisible in the inhabited portion of Canada.

DR. WILSON'S FAMILY ANTI-BILIOUS AND PRESERVING PILLS

have been in use by the public in all parts of Canada for several years. During this time, the proprietors of this excellent specific have received thousands of testimonials from a grateful people.

All speak highly of their wonderful properties, which not only remove the local or present symptoms of disease, but heal as well. Those who are not sick, but, blessed with robust health, walk confidently, fearing no evil, cannot afford to despise this magnificent medicine.

A myriad deadly dangers lurk unseen around the healthiest. Fate, with silent tread, in the busy city street, the mart of commerce, the tabernacle of worship, or the private dwelling house; in town and country alike, stands ever ready to waylay those unprepared for her assaults.

Foolishly unprepared, guilty of their own sickness, and it may be death, are such, who, offered these *Preserving Pills*, refuse their assistance, passing from health to sickness, sickness to chronic debility and final dissolution.

The blood is the life, and to continue healthy, the many accumulations that ultimately produce disease, must not be allowed to accumulate. Nature is strong, and will do much of herself, but there are times in the lives of every man, woman, child, yes, in those of every creature that draws the breath of life, when nature needs assistance.

Not by poisonous drugs can nature be assisted or strengthened, but by helpful tonics and strength producing medicines, such as it has been Dr. Wilson's aim to present to the public in the form of his *Family Anti-Bilious and Preserving Pills*.

A beautiful red-lipped girl or laughing boy, bounding joyously along, kept in health; or restored thereto, after suffering all the vicissitudes of ill-health; by the mild, healing, and preservative effects of *Dr. Wilson's Family Anti-Bilious Pills* is a most beautiful sight.

But the daughter of ill-health, who neglects the boon offered her, and refuses to take some such specific as *Dr. Wilson's Family Anti-Bilious and Preserving Pills*, will, on the other hand, fall first into a state of half sickness, half health, owing to her blood becoming little by little contaminated.

Pimples or blotches next begin to show themselves on the face, the liver is inactive, and a sense of utter weariness is often experienced, the blood coursing languidly through the veins. Remedies other than the right, are taken, which relieve, but do not cure; the symptoms finally returning in an exaggerated form.

Indigestion and its attendant ills, drive the weakened sufferer to the verge of despair, she flies from one remedy to another, until perhaps, in some opportune moment she hears of *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

A trial is made of them, and the result is almost miraculous. The feeble appetite is improved, the blood begins once more to course with its wonted energy through the veins, the whites of the eyes lose their unhealthy yellow look, the foul smelling breath becomes pure scented, the nerves regain and preserve their proper tension, and a healthful being rejoicing in regained strength, is the final result.

These Pills act on the liver, stimulate the secretion of the bile, soothe irritation, allow the bile to mingle freely with the food and thus work off effete matter.

These Pills are sudorific, they stimulate the pores of the skin to act, to pour out the perspiration, ridding by this means the blood of its superabundant watery material.

These Pills act on the kidneys, and are safe in their curative properties. They cause the watery matter to flow freely, thus preventing Diabetes, Inflammation of the Kidneys, Dropsy, and other terrible diseases from taking hold on the system.

These Pills are expectorant, unload the humors and keep the lungs in a healthy, normal condition, preventing the approach of that most invidious foe of the human race, Consumption.

These Pills are preservative in their properties. They do not purge and weaken, thus creating disorders, but infuse new life, as well as retain the original vitality in the system.

These Pills are not costly, although many have declared them to be "worth their weight in gold." They are, in fact, prepared and placed on the market with the especial view that they may be within the reach of all.

These Pills give immediate relief to those who use them. Is any one suffering? Does anybody seek relief for a friend? Let him forever put away the idea that suffering is a necessary evil, let him seek, and obtain immediate relief by purchasing *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

There is no disease they will not cure, or, at least, very much ameliorate, provided only that the lungs are not too far gone in a state of decay, or the body too badly affected by the disastrous results of using mineral or other deadly drugs and poisonous compounds.

Old men, who, past their prime, need a stimulant to ward off the growing lethargy that naturally comes over them in the later years of life, find *Dr. Wilson's Family Anti-Bilious and Preserving Pills* the one thing needful.

Aged women, grandmothers of threescore years and ten, eye, even those of fourscore years, have no words of praise too good for *Dr. Wilson*, discoverer and perfecter of these *Family Anti-Bilious and Preserving Pills*.

Men, in their prime, declare that there is no equal to be found to this famous medicine, which helps to keep them up to the mark, and renews their youth; such cannot help but speak well of *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

Women in the beauty of matronhood know from careful test and wide-spread experience, that no other medicine is of such efficacy, both as respects its effect upon themselves and their darling little ones. They therefore always keep *Dr. Wilson's Family Anti-Bilious and Preserving Pills* in their houses.

Young men, full of vigor, know that their continuance in health and strength is mainly due to their careful watching of such robust constitutions; because however robust and strong a young man's constitution may be, it must of necessity be sometimes relieved of its sarcharged accumulations by a specific of the value of *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

Graceful girls, growing imperceptibly into queenly women, find them of great benefit. Sensible of their innate weaknesses, when the elastic vigor of youth periodically fails, they fly to *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

Youths and boys, whose healthy habit oft-times becomes impaired; who find themselves heavy and drowsy, full of lassitude and dreary feelings without just cause, know that they can have no safer, readier, or surer remedy than *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

PLANETS IN JANUARY, 1887.—The Sun is nearest the Earth on the 2nd ; Uranus being 90° from the Sun on the same day. Venus is in Aphelion—farthest from the Sun—on the 8th. Saturn is at Opposition on the 9th, when he rises at sunset, is overhead at midnight and sets at dawn. The Moon is near him the same night. Jupiter is close to the Moon on the 16th, and 90° from the Sun on the 24th. Venus is near the Moon on the 25th ; Luna passing Mars the same day.

NOTE.—The third column gives the Moon's place in the "Signs," the cross heads give the Planets places, "Mars in Capricornus," etc., which denote the "Constellations."

Infants, whose prattle will die on their lips, who become cross and fretful, seemingly without a cause, may with safety be given part of a Pill as a restorative in several of their little ailments.

Dyspepsia can be cured. It is not a hopeless condition of things. The faulty state of the stomach can be rectified. It can be taught once more to assimilate food. First, by a proper choice of food, by not overloading the tired and overtaxed stomach, by quiet and regular habits of life; and secondly, by taking some carefully prepared medicine, that will help tone up the wearied and overtaxed system, restoring matters to their normal condition. *Dr. Wilson* paid special attention to these needs in his preparation of the *Family Anti-Bilious and Preserving Pills*.

Waterbrash can be cured. It is the result of food taken into a weak or foul stomach, which is unable to act the part of nature. The food ferments, owing to the stomach's unnatural heat, and sending up a bitter liquid into the throat, is a disgusting inconvenience. *Dr. Wilson's Family Anti-Bilious and Preserving Pills* are the proper remedy.

Heartburn can be cured, being nothing more than the sensation produced in the stomach by the latter gas or liquid mentioned. The acidity is removed and the stomach strengthened by a dose or doses—according to the short or long standing of the trouble—of *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

Flatulence can be cured, being nothing but a continuance of wind and gas, accompanying the ill-digested food from the stomach into the bowels, where it produces pain and irritation in its course. *Dr. Wilson's Family Anti-Bilious and Preserving Pills* are a safe remedy for its cure.

Biliousness can be cured, whether present in the shape of local headache, nausea at the sight of food, actual vomiting, pain in the right side,—owing to an inactive state of the liver,—or in any other of its numerous forms. The healthy bile can be made to flow freely from the torpid, congested gland and a due admixture of it be given to the food. But how? By proper exercise, the laying aside of injudicious habits and proper doses of a stimulating medicine, such as is *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

Costiveness can be cured, by the bile properly mixing with the food, and forcing the latter along the intestines. The best means to effect such a cure, without doubt, is by a wholesome specific, and of which there can be no better than the *Family Anti-Bilious and Preserving Pills* of *Dr. Wilson*.

Diarrhoea can be cured, because it is really due to a similar cause as costiveness; the one trouble usually alternating with the other, in persons subject to Dyspepsia. A judicious use of *Dr. Wilson's Family Anti-Bilious and Preserving Pills*, will effect a rapid amelioration of this and all the above distressing diseases.

New strength, in all its vigor, is one of the first results of taking these Pills.

Enjoyment of life, so that however humble, one feels that he would not willingly change places with a king, is another result.

Easy digestion, giving palatability to the food taken, and a relishing zest to all that is eaten, is also a result.

Sound sleep, without which it is impossible to be healthy, or to enjoy waking life, is another result.

Good appetite, such as only a healthy person knows, or a sound mind in a sound body understands, is also a result.

Whoever desires these, and is sickly, should listen to the voice of reason, and reflect on what is here said concerning the great efficacy of *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

No one wishes to be sickly, but many are deterred from visiting a medical man, because of the lengthy bills that doctors sometimes pile up. To those who are without abundant means, this magnificent specific is recommended. Nothing will suit the pocket of the man of small fortune who desires to recover his wonted health, so well as *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

One sure proof of the value of *Dr. Wilson's Family Anti-Bilious and Preserving Pills* is their largely increased sale of late years.

Another sure proof is the immense reputation that these pills have built up for themselves in a comparatively short period as compared with many other medicines on the market in the Dominion. Take them all in all, no other specific for the diseases mentioned can equal *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

This is because they cure. Those who try them never forget this fact, and usually recommend them right and left to their neighbors.

Hundreds of testimonials from highly respectable persons in all parts of Canada go to prove this assertion, which is not made at hazard or with a view to deceive, but as a statement of simple fact.

Letters expressing grateful thanks are constantly being received by the proprietors of these Pills who are consequently urged on their course in making them more widely known than ever, in the hope that they will prove of yet greater benefit to suffering humanity.

This is the live end of a remarkable century. The steamboat, the locomotive, the electric telegraph, the telephone, and the electric light, have all been perfected since the first day of the year 1800 dawned. In nothing has progress been more rapid, perhaps, than Medical Science.

The old era of cupping and bleeding has for ever passed away. Those days of barbaric practice have gone for ever. Even pharmaceutical science has become more and more simple, until the civilized nations look more to-day, in their general ailments to general well-known preparations such as *Dr. Wilson's Family Anti-Bilious and Preserving Pills* rather than to the nauseating nostrums of the pharmacist.

This is a century of inventions, but no greater benefit was ever evolved from the brain of a successful scientist, than that achieved by *Dr. Wilson*, when he discovered and perfected his now far famed *Family Anti-Bilious and Preserving Pills*.

This is a century of utilitarianism. People will not take up things that do not pay. But no one can afford to be without *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

Unprincipled dealers have been known to recommend cheaper specifics, when asked for this magnificent medicine. Fortunately such unprincipled people are rare, and *Dr. Wilson's Family Anti-Bilious and Preserving Pills* are now obtainable in almost every city, town, village and corners throughout the length and breadth of Canada.

Purchasers should insist on getting what they ask for, and not be put off with articles made up to imitate the invaluable Pills of *Dr. Wilson*.

To thus insist, is a duty not only to themselves at the moment, but to those who follow. Although no actual harm might come in their own case from the purchase of an inferior article, the next comer's health might, perhaps, be for ever ruined through taking what he supposed to be *Dr. Wilson's* invaluable *Anti-Bilious and Preserving Pills*.

In all cases where an inferior article is attempted to be palmed off, the proprietors would feel obliged if the injured party would communicate with them, addressing the complaint to *J. W. BRATLEY, Wholesale Druggist, 481 St. PAUL STREET, MONTREAL.*

PLANETS IN FEBRUARY, 1887.—Luna passes Neptune on the 2nd, and Neptune is "stationary" on the 5th. Saturn and the Moon are close together during the early morning of the 6th. Mercury is in Superior Conjunction—behind the Sun—on the 7th, and on the same day the Moon is eclipsed. Mars and Venus are in conjunction on the 9th; Uranus close to the Moon on the 11th, and Jupiter near here on the 13th. Neptune is 90° Quadrature from the Sun on the same day. Jupiter "stationary" on the 19th. The Sun suffers eclipse on the 22nd. The Moon, Mercury and Mars are close together on the 23rd. Luna overtakes Venus on the 24th.

DR. WILSON'S PULMONARY CHERRY BALSAM

is the most reliable remedy known to man, and has been the means of saving many valuable lives since its introduction to the people of Canada.

Throat and lung diseases it can have no equal, being invaluable in all those specially mentioned below.

Colds, which are usually thought and made so little of, it is imperatively necessary to take in time, especially should there be a tendency in the patient's family towards consumption.

The proper remedy for all colds, either in the head, or permeating the system, is a prompt administration of *Dr. Wilson's Pulmonary Cherry Balsam*.

Coughs, the outgrowth of colds, which are accompanied with difficulty in breathing, etc., must be at once looked to.

Every hour of delay is important, serving as it does, to strengthen the hold of the disease on the system, rendering the patient the less susceptible to the curative properties of medicines.

Today's irritating cough, which is but a trifling annoyance, may to-morrow become bronchitis, and must be immediately relieved by *Dr. Wilson's Pulmonary Cherry Balsam*.

No fool-hardiness is greater than that exhibited by persons who expect such coughs or colds to disappear of themselves, without assistance.

Nature is feeble, and must be assisted at such times, and it is the sufferer's imperative duty to at once seek prompt relief by the use of *Dr. Wilson's Pulmonary Cherry Balsam*.

Nothing is so effectual in allaying a cough as this specific, which soothes the irritation, and exerts an influence that destroys disease and restores the sufferer.

Sore throat is another most dangerous affection, which commencing simply by a slight sore feeling, may run quickly through all the more painful stages, until becoming ulcerated, the patient succumbs to the disease.

Take such in time therefore. Relieve the inflammation immediately. Get the most potent remedy that is invented and effect a cure. Such a remedy is *Dr. Wilson's Pulmonary Cherry Balsam*.

Hoarseness and loss of voice frequently afflicts those whose occupation leads them to the use of the vocal organs at all times. Amongst such may be included Clergymen, Public Speakers, Members of Parliament, Legal Gentlemen, Vocalists, Actors, Auctioneers, etc. Benefit will be at once experienced upon using *Dr. Wilson's Pulmonary Cherry Balsam*.

Quincy is another form of ulcerated sore throat, with inflammation and enlargement of the tonsils. Great headache, thirst and considerable fever, are its accompaniments. The disease is a dangerous one if not immediately checked by doses of *Dr. Wilson's Pulmonary Cherry Balsam*.

Bronchitis is a most dangerous inflammatory disease, often the result of a simple cold produced by exposure, especially in wet or cold weather. It begins in a rough feeling along the windpipe, and the patient tries unsuccessfully to clear the throat. A dry cough succeeds, then great hoarseness, with oppression over the chest, trouble in breathing, accompanied by acute pains, and the expectoration of a thick mucous matter, white at first, but afterwards of a yellowish, greenish, color, sometimes tinged with blood. Expectoration becomes very exhaustive. Feverishness and sometimes cold sweats are present, and Bronchitis frequently be-

comes consumption, unless checked. *Dr. Wilson's Pulmonary Cherry Balsam* checks, relieves and cures Bronchitis.

When recovering from Bronchitis, the patient, together with the *Pulmonary Cherry Balsam*, is advised to recuperate his or her system with *Dr. Wilson's Tonic and Sarsaparillian Elixir*. The bowels should also be kept properly open with *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

Asthma is an obstinate disease, generally much worse during the night season, when it occasions not only loss of sleep, but restlessness, coughing and threatened suffocation. The patient is exhausted and greatly distressed, owing to the bronchial tubes becoming contracted and congested, respiration being impeded and almost suspended. Obstinate nor not, *Dr. Wilson's Pulmonary Cherry Balsam* is the medicine that will effect a cure, if taken both during and after the fits.

Influenza sometimes affects a whole community in an epidemic form. It has for symptoms, hoarseness, continuous sneezing, the throat is sore, as well as the stomach and lungs, there are often chills and fever as well. The discharges from the nose are continuous, and the eyes run. There is usually a cough and difficulty in expectorating. As neither a single patient nor a whole community can tell when influenza—which if not checked, may degenerate into consumption,—is likely to make its appearance, and as the best known remedy is *Dr. Wilson's Pulmonary Cherry Balsam*, parties should never be without a bottle of this famous specific in the house.

Hay fever is a summer complaint, which often attacks weakly people during hot weather. It usually begins from a cold, and is accompanied by difficulty in breathing, while hot weather, dust, the smell of flowers, hay, fruit, the pollen of plants, etc., aggravate to an unbearable degree the patient. Nothing alleviates this disease so thoroughly and quickly as *Dr. Wilson's Pulmonary Cherry Balsam*.

Diphtheria, a virulently contagious disease, needs immediate action if it is to be overcome. Frequent doses of *Dr. Wilson's Pulmonary Cherry Balsam* should be immediately given the patient, even before the medical man arrives, who will probably order a continuance of the remedy.

Great Debility follows an attack of Diphtheria, and as the patient's strength has of necessity to be restored, nothing will eradicate the remains of the disease, and restore the enfeebled vitality equal to *Dr. Wilson's Tonic and Sarsaparillian Elixir*.

Congestion of the lungs begins with a sudden cold, brought on by exposure to cold or damp. The lungs are choked up with blood, there is great difficulty in breathing, cough, pain in the side, expectorations and feverishness, the heart's action is irregular, skin hot, the bowels irregular in their action, being sometimes costive, sometimes loose. On such symptoms making their appearance the only thing to do is to make immediate use of *Dr. Wilson's Pulmonary Cherry Balsam*. It is almost infallible.

Catarrah is a disease which is apparently on the increase, owing to people, doubtless, being partially unacquainted with the precious boon offered them in *Dr. Wilson's Pulmonary Cherry Balsam*. Attacking the glands and membranes of the head, it, in time, becomes a chronic complaint. Then woe to the sufferer! The very frontal bones of the skull decay, the cartilages of the nose are eaten away, the breath stinks, the brain itself is affected and the hearing, memory, sight and taste, are destroyed.

It must be checked at once, if it is to be easily cured, and not left to degenerate into con-

3rd MONTH.

MARCH.—31 Days.

Begins on Tuesday.

PLANETS IN MARCH, 1887.—Mercury is in Perihelion, and Neptune close to the Moon on the 1st. Saturn is near the Moon on the 5th and Mercury at his greatest elongation east of the Sun the same day when he will be seen in the west after sunset. Uranus and the Moon are near together on the 10th; Jupiter is beside Luna on the 12th, and Mercury approaches Mars on the morning of the 15th; Saturn is "stationary" on the 17th. The Sun enters Aries, and Spring commences at 5 p.m. on the 20th. Mercury is between the Earth and Sun (Inferior Conjunction) on the 21st. The Moon is in conjunction with Mercury on the 23rd; Mars on the 24th; Venus on the 26th, and Neptune on the 28th. Uranus passes "opposition" and becomes an "evening star" on the 31st.

sumption and death. *Dr. Wilson's Pulmonary Cherry Balsam* is the single remedy worthy of a name, and must be taken for permanent relief. *Dr. Wilson's Family Anti-Bilious and Preserving Pills* could be taken at the same time to regulate the bowels, and as a purifier, *Dr. Wilson's Tonic and Sarsaparillian Elixir*.

Croup, or rattles, is an acute disease which attacks the windpipe, it is usually, very dangerous to young children, scarcely ever attacking adults, although cases of croup in grown persons have been known to occur.

It is very fatal, a whitish false membrane being formed, which stops, or at least, very much impedes the passage of air to and from the lungs.

The little darling, the hope of its parents, who would give their own lives, rather than the pet of a household should die, emits the peculiar rattling cough, has difficulty in breathing, and unless assisted at once, succumbs. Use an Emetic of Ipecac first, and then a dose of the Pills; use *Dr. Wilson's Cramp and Pain Reliever* externally on the chest and throat, and then continue the use of *Dr. Wilson's Pulmonary Cherry Balsam* to cure the disease, and prevent a recurrence of the attack.

As soon as regular and easy breathing is restored, the intervals between the doses of the *Pulmonary Cherry Balsam* may be lengthened, but the use of it should be continued until recovery is unmistakably complete.

Whooping Cough attacks the mucous membrane of the windpipe, as well as the bronchial tubes, and cannot be mistaken, since it is accompanied by a peculiar "whoop."

It is, of course, contagious, and is not easily shaken off by the patient, who has fever and quick respiration. These disappear, to be followed by spasmodic fits of coughing, so very violent that they have frequently produced rupture.

Weak children, while thus attacked, are liable to inflammation of the lungs or brain, which sometimes proves fatal.

Vigorous treatment is of vital importance, and that as soon as the cough declares itself, when doses of *Dr. Wilson's Pulmonary Cherry Balsam* should be administered.

Give an emetic if mucous forms and clogs up the throat, and see that the bowels are kept properly open by regular, but of course mild doses of *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

Change of air is often beneficial, and in conjunction with the remedies prescribed will work wonders. If there is excessive vomiting, a single drop of laudanum may be administered with the food of the child.

As a household specific in diseases peculiar to infants, *Dr. Wilson's Pulmonary Cherry Balsam* stands at the top of the list. But its uses are not yet all told.

Consumption, the most dreaded, the most fatal—when once it lays hold—of all diseases, has become terribly prevalent, owing to the carelessness of weakly persons, and indiscreet marriages between parties of impaired vitality.

Consumption is inherited, but it is also very often nothing more than the final result of a neglected cold, that, taken at the proper moment, and checked by *Dr. Wilson's Pulmonary Cherry Balsam* would have left the sufferer unscathed.

Consumption has been allowed to become prevalent, owing to cases of sinful neglect on the part of people, who, in most instances should know better. Colds should not—and will not in the future, be neglected, because men and women will learn ere long that a remedy is nigh at hand, easily

obtainable. The remedy is *Dr. Wilson's Pulmonary Cherry Balsam*.

Consumption, in its earliest symptoms, is accompanied by a short hacking cough, slight at first and without pain. The patient treats it slightly, makes light of it, says it will go away, or that it is nothing, usually not taking any remedy, as well as continuing the mode of life which is inducing the disease. What is necessary is an immediate change for the better, and for medicine, proper doses of *Dr. Wilson's Pulmonary Cherry Balsam*.

Consumption, neglected in its first stage, the cough is succeeded by a colorless expectoration, there is much weariness, the figure becomes thin, debility grows daily, the neglected cough becomes a chronic trouble, tubercles form in the lungs. If a case has reached this point, there must be no trifling, remedies must be taken or the patient cannot recover. Immediate recourse should be had to *Dr. Wilson's Pulmonary Cherry Balsam*.

Consumption in its final stage is accompanied with wasting, the lungs are gradually consumed, there are copious night sweats, much fever, a hectic flush usually on the cheeks, sometimes giving way to deathly pallor, hemorrhages from the lungs take place and the patient sinks rapidly. Ere these distressing symptoms show themselves, the patient should resort to the famous consumption specific, *Dr. Wilson's Pulmonary Cherry Balsam*.

Consumption, up to a certain point, can be cured. Nothing can possibly save those who neglect proper remedies until the final stage has commenced. In hundreds of cases, even where the disease has really made itself alarmingly apparent, *Dr. Wilson's Pulmonary Cherry Balsam* has been known to restore. It at once allays the irritating cough, prevents further laceration of the lungs and is conducive of repose.

Consumption, besides medicine, needs hygienic treatment. This must be carefully attended to. The flimsy clothing, which perhaps has helped to cause disease, must be laid aside, and good warm, dry garments, put on. The action of the pores of the skin should be accelerated by friction, night and morning, nourishing food taken, salt meats and liquors avoided, as well as night air and exposure to the weather. Exercise, cheerfulness and temperance, will greatly aid *Dr. Wilson's Pulmonary Cherry Balsam* in effecting a permanent cure.

Consumption, when accompanied by scrofula, needs, as well as *Dr. Wilson's Pulmonary Cherry Balsam*, the aid of an even yet more powerful medicine—such as *Dr. Wilson's Tonic and Sarsaparillian Elixir*—which are the only remedies that can safely be relied upon in such serious cases.

The effects of these two medicines, in such cases are magical, the cough is relieved, the lungs healed, and the sufferer snatched from the jaws of the grave.

Years are added to the lives of those who thus take the trouble in time, and ever afterwards *Dr. Wilson's Pulmonary Cherry Balsam* is considered a household necessity, which those who have tried it would not be without it on any account whatever.

All over Canada the praise of the *Pulmonary Cherry Balsam* is heard. There is no city, town, village or hamlet, where it is not praised by a grateful public.

Newfoundland, away out in the broad Atlantic, with its rock-bound coasts, its hardy sealers, whalers and fishermen, although often enveloped—covered and out of sight,—owing to the dense fog that there rather by reason of the gulf stream and the ice-cold Arctic currents, has no fear of the result of the most changeable or unpleasant weather

that can occur, since her people can fly whenever they take cold, to *Dr. Wilson's Pulmonary Cherry Balsam*, and be cured.

Nova Scotia, whose wishes for separation have been very loudly and firmly declared lately, has no wish to separate herself from such things as are beneficial to her people. Should a separate colony be established down by the sea, one of the articles admitted free of duty from Canada will undoubtedly be, *Dr. Wilson's Pulmonary Cherry Balsam*.

New Brunswick also knows the value of this specific. In her ship building yards, her canning towns, her lumbering camps, and in fact, all over, she raises a unanimous voice in favor of *Dr. Wilson's Pulmonary Cherry Balsam*.

Prince Edward Island, the little province reposing securely in the lap of the Gulf, whose waters lave the larger Provinces of the Dominion, hails, as one of her greatest blessings, the vessels that approach her island shores with consignments of *J. W. BRAYLEY's* specifics, one of the chief amongst which is *Dr. Wilson's Pulmonary Cherry Balsam*.

Quebec, the eldest daughter of the Dominion, guarding vast commercial, industrial, agricultural, and other interests, whose chief city is Montreal, already far famed as containing the establishment whence proceed to cheer, strengthen and renew the feeble and sick, proprietary medicines of such healing virtues as *Dr. Wilson's Pulmonary Cherry Balsam*.

Ontario, the prosperous and wealthy, whose numerous towns and cities form a veritable hive of industry, boasts of nothing superior in the way of a substantial boon to the ailing, than *Dr. Wilson's Pulmonary Cherry Balsam*.

Manitoba, when harvested the golden grain from her swelling cornfields, and gathered the grass and summer flowers from her undulating prairies, when comes the cold "Norther" and the blasts of winter whirl the snow into mountainous drifts; when her people suffer in consequence of the wind from bronchial affections, blesses the mind that concocted and the hands that prepared the golden remedy, *Dr. Wilson's Pulmonary Cherry Balsam*.

Alberta, Assiniboin, Keewatin, and the rest of that wonderful North-West, whose magnificent resources have not really begun to be developed, and are but very little known, tells in her scattered farm houses or beside her yokes of patient oxen, as their drivers stop to rest and exchange news, of the wonderful cures achieved by *Dr. Wilson's Pulmonary Cherry Balsam*.

Hudson's Bay Territory, is not, it would seem, entirely the inhospitable, bleak region that parties interested in keeping civilization out have represented it. Surveys have already been commenced for a railway to its coast, and before long, it is more than likely that the forests hitherto penetrated only by the hardy trapper, the Indian or the Esquimaux, will re-echo—at least during the months of summer—to the snort of the iron horse, as with "no muscles to tire, no flesh to decay" he draws the cereal wealth of half a continent northward. Amid the first consignments of merchandise to the new region will be found cases of *Brayley's* specifics, one of the chief being *Dr. Wilson's Pulmonary Cherry Balsam*.

British Columbia, lately linked by lines of iron to her eastern sisters, as she stretches out her youthful hands to the elder ones, receives thankfully from the eldest, the matronly Quebec, in one of her warm little palms, *BRAYLEY's* specifics, and

amongst them is *Dr. Wilson's Pulmonary Cherry Balsam*.

Vancouver's Island, with her pleasantly situated city of Victoria, her coal mines and other industries, is increasing in population and wealth. One question that perplexes her far more than Chinese Labor Question, is whatever her people would do were they forced to get along without *Brayley's* specifics, especially *Dr. Wilson's Pulmonary Cherry Balsam*.

The Canadian Pacific Railway, so necessary for communication between East and West, is continually conveying to the homesteads along its thousands of miles of route cases and packages of such medicines as *Dr. Wilson's Pulmonary Cherry Balsam*.

Canadian Politicians seldom agree on what is best for their country. On one question, however, Conservatives and Liberals are alike united, viz.: the excellence of *Dr. Wilson's Pulmonary Cherry Balsam* as a cure for all bronchial affections.

Macdonald and Blake are never at issue on this. Here they see eye to eye. The "Chieftain" knows that nothing can equal *Dr. Wilson's Pulmonary Cherry Balsam* and "Edward" is of a similar opinion. At least, if he is not, he ought to be.

Members of Parliament, during lengthy debates often feel the need of a reliable throat medicine. In *Dr. Wilson's Pulmonary Cherry Balsam* they find what they want.

Imperial Federation, Independence and Annexation, all have their advocates in Canada, and as wide as their views differ on questions of political economy, nothing can exceed the way in which they see eye to eye as regards the virtues of *Dr. Wilson's Pulmonary Cherry Balsam*.

The National Policy is greatly extolled by many, considered, as it is, the most popular measure for many years. Those who extol it, however, are just as ready to praise the virtues of *Dr. Wilson's Pulmonary Cherry Balsam*.

Free traders have some strong arguments and are generally ready to "argue it out" with their opponents. They never attempt to get up an argument against the many fine qualities possessed by *Dr. Wilson's Pulmonary Cherry Balsam*.

Nationality and questions supposed to relate to it, sometimes lead the residents of the Dominion into squabbles, but none were ever known to quarrel over the virtues of *Dr. Wilson's Pulmonary Cherry Balsam*, but to readily admit them at once as proved.

Indians on their reservations, are acquainted with the virtues of this specific. They know its properties, equal, nay, surpass anything that their woodland lore or prairie experience has discovered. The gum of the spruce gives way in their estimation to *Dr. Wilson's Pulmonary Cherry Balsam*.

No place in Canada, and no class whatever but has learned to value it highly. Without it, many a weak chest would have become consumptive and carried its owner down to a premature grave. The universal chest restorer of Canadians therefore is *Dr. Wilson's Pulmonary Cherry Balsam*.

From ocean to ocean, at every place amongst every nationality gathered together in this Dominion, *Dr. Wilson's Pulmonary Cherry Balsam* and the other specifics described in this annual, find ready sale. They are to be obtained wholesale from *J. W. BRAYLEY*, 431 ST. PAUL STREET, MONTREAL.

WRIGHT'S VERMIFUGE.

Vermifuge, according to the learned Worcester dictionary, is a word formed from the Latin roots, "vermis" a worm, and "fugo," to cause to flee. In the Italian and Spanish the word is spelled "vermifugo," and in the French the same as the English. Dunglison explains "vermifuge" to be "a medicine or remedy which expels worms from the animal body, or which prevents their formation and development." This is exactly what *Wright's Vermifuge* accomplishes.

Worms, not content with feasting on the remains of poor humanity after death, frequently attack the living, entering by means perhaps of improper food through the mouth where they fecundate, and multiply.

Multiply too, at an enormous rate until hundreds, nay thousands of these disgusting creatures are alive and at their direful work in the bowels of the child or adult.

The symptoms are various, sometimes the body wastes, picking the nose is a frequent habit, there is itching at the fundament; the bowels become irregular, as is also the appetite.

Sleep is troubled and disturbed doing the sufferer little good, the breathing is difficult, with ringing in the head, and sunken eyes with dark circles around them as if the patient were in a consumption.

Loss of intellect not infrequently results if the trouble is allowed to continue unchecked. The safest and surest remedy is *Wright's Vermifuge*.

Give it on an empty stomach, and the worms cannot remain. Every living creature, however many or few there may be, will be evacuated.

So far, so good; but one dose will seldom be found sufficient. The living worms have been expelled, but the eggs remain, attached to the coats of the intestines. These eggs will come to life after a short time, and unless attended to, soon make the child as sick as ever. Therefore, a few days after the first dosing, give another, until the child is entirely cured and restored to health by the beneficial effects of judicious doses of *Wright's Vermifuge*, the most reliable worm medicine known to medical science.

Worm lozenges, let it be remembered, sometimes fail in action. They are too mild in some cases. The child takes them and if no worms are passed, the parent imagines that her little one is free from worms, attributing the sickness to something else.

Mothers, be not deceived, if worm lozenges prove useless, what is needed to search the intestines is a medicine of the strength and power of *Wright's Vermifuge*.

Children when yet in the nursing stage, may be attacked by worms. If so, give them *Wright's Vermifuge*.

Children when teething are often troubled by worms in the bowels and should be relieved by *Wright's Vermifuge*.

Children when but the veriest toddlers, are the victims of these intestinal parasites. The proper remedy is *Wright's Vermifuge*.

Children at school often sicken and have to remain away from their studies. Worms are frequently the cause of their troubles and all they need is a dose or two of *Wright's Vermifuge*.

Children in their teens, growing up to be handsome youths and beautiful maidens, sometimes unaccountably fall away. They grow thin and

haggard, do not enjoy their food or their play as usual, and parents are at a loss—failing to find them troubled with any special complaint—to locate the disorder. The intestinal canal, if it could be examined, would be found more or less occupied by worms, and a few doses of *Wright's Vermifuge* would restore the boys and girls to their wonted health and happiness.

Men and women are not free from this trouble, so erroneously considered a youthful one only. Often and often, those who appear healthy, were they to know exactly what is going on within them, would shudder at the consequences, and fly to *Wright's Vermifuge* for relief.

Many a little ailment attributed to biliousness, a cold, or some other cause, is really due to the insidious worm fiend that is slowly but surely undermining the constitution. By and by the day comes, when some extra strain has to be borne by the already overtaxed system and the man or woman succumbs to some other disease, which could not have had the least power to harm and would have passed the sufferer unscathed had recourse been had to *Wright's Vermifuge*, and the worms—really at the bottom of the mischief—expelled.

Vitality is too precious to be wasted in feeding worms. Your family, home, farm, business, profession, needs and must have your fullest attention. See therefore that you rid yourself of these pests. Harbor them no more, either wittingly or unwittingly. *Wright's Vermifuge* is the proper remedy.

When rid of them, see that they do not again take up their abode within yourself or your children as the case may be. If debilitated through a tendency to scrofula, the vitality must be restored by an Alternative.

No alternative so powerful and searching in its nature has been placed before the public as *Dr. Wilson's Tonic and Sarsaparilian Elixir*.

By its use, the scrofulous taint which produced the worms, or allowed of their harboring in the system, is quickly eradicated, the poison in the blood removed and the body entirely purified and renewed.

In severe cases therefore, after *Wright's Vermifuge* has effectually done its duty, a course of the *Tonic and Sarsaparilian Elixir* becomes of vital necessity, in order to restore the wasted energies and build up the tissues, demoralized and destroyed by the insidious attacks made upon them by loathsome parasites.

Why wait until the system is broken down and the health ruined? The worms will not pass away of themselves. This is obvious. Something must be done to expel them, or else they will go on increasing and increasing until the whole of the intestines become a mass of loathsome life. Get *Wright's Vermifuge* and cure yourself.

Not to take medicine when sick is foolish, nay, it is criminal. The child may refuse to receive physic from its parent, but it is the parent's duty to insist on the child's obedience. Children, as well as grown up persons, troubled in any way with worms should at once seek relief. *Wright's Vermifuge* will prove a golden remedy.

This wonderful worm remedy is obtainable throughout the length and breadth of the Dominion of Canada and Newfoundland, and wholesale of J. W. BRAYLEY, 481 ST. PAUL STREET, MONTREAL.

ASK FOR WRIGHT'S VERMIFUGE AND TAKE NO OTHER.

4th MONTH.

APRIL.—30 Days.

Begins on Friday.

PLANETS IN APRIL, 1887.—Saturn and the Moon are in conjunction on the 1st, and Saturn is 90° from the Sun—"quadrature"—on the 2nd. The Moon passes near Uranus on the 7th, and Jupiter on the 8th. Mercury is farthest from the Sun—Apheleon—on the 14th. Venus passes Neptune on the 15th, and Mercury is well placed for seeing about the 17th, when he is morning star, and should be looked for in the East before sunrise. Jupiter reaches opposition to the Sun on the 21st, when he is overhead at midnight. The Moon is near Mars on the 23rd; Mars himself being in conjunction with the Sun on the 24th; the Moon passes Venus on the 23th, and Saturn the same day.

DR. DOW'S STURGEON OIL LINIMENT.

The healing and curative powers of this celebrated Liniment is at once recognized. Immediately it is applied to **frost-bites, chilblains, burns, scalds, erysipelas or St. Anthony's fire, ringworms, boils, felons, etc.**, or in fact, wherever the surface of the skin is not broken, the effect produced is almost magical.

A single application has been frequently known to perfect a cure in less troublesome cases; while many obstinate ones have been entirely relieved after a few rubbings.

For sprains and strains it has no equal. All that is necessary is that it be well rubbed in two or three times a day with the palm of the hand.

As a family liniment *Dr. Dow's Sturgeon Oil Liniment* meets the wants of every household, and a bottle of it should be at hand, ready for immediate use at all times.

In the spring, when out-door work and games may be said to commence, and accidents in the way of bruises and sprains may be met with at any time.

In the summer, when the usual heat raises the temperature and inflames the blood, producing boils and felons, as well as inducing the bites of insects, such as mosquitoes, black flies, spiders and the like.

In the autumn, when helping to gather the fruits of the earth, nothing is of more frequent occurrence than a strain or bruise.

In the winter, when the icy sidewalk slides from under one, or the cutting breath of zero produces frost-bite and chilblains.

At all times, in fact, *Dr. Dow's Sturgeon Oil Liniment* may be wanted at a minute's notice.

The experience of many years places it, as a family liniment, far ahead of every other.

Human beings are not alone benefited by it, since it is of equal service in reducing swellings and healing sprains in horses. For all equine troubles that manifest themselves on the surface, *Dr. Dow's Sturgeon Oil Liniment* is without an equal.

For bruises it is the best oil extant.

Strains are immediately relieved by its timely application.

Saddle and collar galls heal rapidly when *Dr. Dow's Sturgeon Oil Liniment* is applied to them.

Wounds and scratches of all kinds need not cause the slightest fear to the owners of valuable horses in Canada with *Dr. Dow's Sturgeon Oil Liniment* close at hand.

Cracked heel and grease, however troublesome they may have proved, vanish like ice in the summer sun before applications of the *Sturgeon Oil Liniment of Dr. Dow*. Cleanliness should also be observed, the parts affected being washed with Castile soap and warm water, prior to each application. Thorough drying before rubbing in the Liniment is also essential. A drachm of alum or blue vitriol in severe cases may be added to a bottle of *Dr. Dow's Sturgeon Oil Liniment* with advantage.

Weak knees in colts and young horses, are sometimes a serious trouble. All that is needed is a few applications of *Dr. Dow's Sturgeon Oil Liniment*, when the cords and muscles of the knees will be found strengthened, the colt rapidly growing well.

Blood spavin cannot help but yield to *Dr. Dow's Sturgeon Oil Liniment*, because it at once begins to reduce the soreness and swelling, eventually bringing about a perfect and essential cure.

Founder, ringbone and hard hoof yield to its application, and this liniment with *Clarke's Derby Condition Powders*, make the farmer and livery stable-keeper independent of the Veterinary Surgeon.

The powders keep the blood pure and the strength unimpaired, so that the beautiful horse, the patient ox, or the milk giving cow continue in their immaculate strength and excellence.

Poll evil and fistula in the withers are cured by simply injecting *Sturgeon Oil Liniment* into the fistulous pipes. Let an opening be made where the inatter forms, and the opening be kept open by a seton, thus allowing a free discharge.

Wind galls may be dissipated in a single night by simply taking a pad of several thicknesses of old muslin and having saturated it with the marvellous *Sturgeon Oil Liniment*, applying it to the wind gall, securing it there by a bandage.

Sand crack is another ailment that *Dr. Dow's Sturgeon Oil Liniment* cures. It softens the hard hoof and prevents fungous granulation. The coronet should be anointed three times a day, which will stimulate a healthy secretion of horn, and obliterate the opening in the hoof. A hot iron should be applied to the angle of the crack for a moment, in order to prevent its further extending, after which the hoof may be bound with wax end.

Contracted joints that appear gone beyond the hope of recovery have been restored by the persistent use of *Dr. Dow's Sturgeon Oil Liniment*.

Sciatica cannot remain where this liniment is applied, however painful, it vanishes at once and leaves no trace behind of where it has been, so effectual a remedy is *Dr. Dow's Sturgeon Oil Liniment*.

Mange is a distressing trouble, but it can be cured. *Dr. Dow's Sturgeon Oil Liniment* is the remedy needed. After brushing the loose scurf from the skin, anoint all over with the *Sturgeon Oil Liniment*, mixed with equal parts of alcohol. Let the mixture remain on one day, then wash off with soap and warm water. Repeat the process three or four times and the animal will be well.

Bone spavin is an affection of the bones of the hock-joint, generally the result of too violent action of the joint when galloping, etc. There is inflammation, and the union between the splint bone and shank becomes bony instead of cartilaginous. At the beginning there is lameness, which often disappears though the disease continues. Two bottles of *Dr. Dow's Sturgeon Oil Liniment* have been known to cure the worst form of spavin in a day or two.

Rheumatism of years' standing, that has defied every other remedy, has been cured by *Dr. Dow's Sturgeon Oil Liniment*.

Farmers, from the nature of their work, which is out of doors in all weathers, naturally suffer much from this distressing complaint. It is from them, in all parts of Canada, that testimonials of *Dr. Dow's Sturgeon Oil Liniment* are received.

These express the utmost gratification, the most unbounded thankfulness, at the marvellous restorative properties of this liniment.

As is well known, rheumatism is a most acute and excruciatingly painful disease, accompanied frequently by much inflammation and stiffness of the joints. A single application of *Dr. Dow's Sturgeon Oil Liniment*, however, usually makes a remarkable change.

The pain dies out, the stiffened joints grow flexible, the inflammation subsides, the afflicted one feels ready to shout for joy at the relief, blessing the moment when sound sense advised him to purchase a bottle of *Dr. Dow's Sturgeon Oil Liniment*.

31 Tu.	♋	16	39	Eve.	1 14	22	32	19	36	rains.	

PLANETS IN MAY, 1887.—Venus, the brilliant evening star, is at Perihelion—nearest the Sun—on the 1st. On the 6th, Jupiter and the Moon are close together. On the 18th, Neptune passes behind the Sun, and a close conjunction of Mars and Mercury occurs on the 21st. Mars, Mercury and Neptune are in conjunction with the Moon on the 22nd, and Neptune is in conjunction with Mercury on the 23rd. The Moon passes Venus on the 26th and Saturn the same day. Mercury is behind the Sun on the 27th and Neptune is near Mars the same day. Venus and Saturn are in conjunction on the 30th.

Weather changes affect rheumatism and sciatica to an unusual degree, and sometimes on a change of atmospheric pressure old diseases return.

Some systems are more sensitive than others, and feel the changes sooner. It not infrequently happens that nervous persons afflicted with chronic ailments suffer excruciating torture at or before the more remarkable atmospheric disturbances.

The weather forecasts in this *Almanac* will usually indicate when a general change is to be expected. At such times, those who have previously suffered with rheumatism, sciatica, etc., should look that they have a bottle of *Dr. Dow's Sturgeon Oil Liniment* at hand ready for immediate application.

If the old pains return, no matter how feeble they may be, the bottle should be produced and a vigorous rubbing of the parts affected be given. This will keep the trouble away.

Prevention must be better than cure, no matter how one looks at the subject. It is nonsense to suffer through delay, when the remedy is at hand. Let all rheumatic persons, or those with an inherited tendency thereto, use liberally of *Dr. Dow's Sturgeon Oil Liniment*.

Fish are most valuable, especially such as can be used not only for alimentary, but healing properties.

The sturgeon, from which this all healing curative oil is extracted, is a large fish, abundant in Canadian and American waters; it is usually about six feet long, but specimens sometimes are taken over eighteen feet in length. The body is long and slender, gradually tapering towards the tail, and covered throughout the whole length by large, bony tubercles.

The flesh, white and delicate, is firm and makes an excellent food; the roe of the female furnishes caviare, and isinglass is made from the air bladder.

Its most useful production is, however, this famous oil, which *Dr. Dow's* ingenuity extracted and after careful manipulation placed on the market as a remedy. *Dr. Dow's Sturgeon Oil Liniment* is now even better known especially in inland parts of Canada than the fish from which the oil is extracted.

It is hard to beat in every way, not being a production hurriedly compounded, but properly, carefully and correctly prepared, until *Dr. Dow's Sturgeon Oil Liniment* has no equal in the markets of Canada.

Dr. Dow made very careful trials of his famous Liniment ere he placed it on the markets. He tried it repeatedly and found it just what was wanted in cases of neuralgia, rheumatism, lumbago, sciatica, cramp in the muscles, sprains and bruises.

Most worthy people, in every portion of Canada, have tried this oil, and pronounced in its favor repeatedly. In fact, it would be impossible for those who really understand its virtues to declare otherwise.

The authorities of to-day are all in its favor as well as those of yesterday. That the authorities of the future should differ as to the merits of *Dr. Dow's Sturgeon Oil Liniment* is an absolute impossibility.

Jacques Cartier is famed for having discovered Canada, but *Dr. Dow* made a discovery of equal importance when he succeeded in producing his *Sturgeon Oil Liniment*.

Champlain founded Quebec and made the passage of the Ottawa, through Lake Nipissing to Lake Huron. The foundation of beneficial results

that have accrued from persons who have used *Dr. Dow's Sturgeon Oil Liniment* with success is as great an achievement as that of Champlain.

Maisonneuve settled Montreal, and named it Ville-Marie. He was a brave man and his exploits against the Indians are still spoken of. Montreal to-day, however, is equally famous as being the depot from whence *Dr. Dow's Sturgeon Oil Liniment* is forwarded to all parts of the Dominion.

Wolfe, backed by the soldiers of Great Britain, captured Quebec for England. The effect of his gallant exploit on the Heights of Abraham remains to this day. So also remain the effects of *Dr. Dow's* discovery of his *Sturgeon Oil Liniment*.

Montcalm succumbed to the bullets of the soldiers of Wolfe, and died at the same time. Had it been but rheumatism from which the great French General suffered, *Dr. Dow's Sturgeon Oil Liniment*, if then known would have effected an immediate cure.

Carleton saved Canada from Montgomery and the Americans. His noble ardour and the action of his brave followers struck terror into the followers of Arnold. To-day, *Dr. Dow's Sturgeon Oil Liniment* strikes immediate terror into the pains which rack the rheumatic sufferer. They cease and he becomes a new man forthwith.

Brock died defending his country at Queenstown Heights, and showed thereby a most gallant example. *Dr. Dow* has shown an equally good example in the way of medicine, by his discovery, which must necessarily stimulate other physicians to attempt something as equally beneficial as the *Sturgeon Oil Liniment*.

Wolseley succeeded at the first Red River expedition in driving the then rebels before him. *Dr. Dow's Sturgeon Oil Liniment* has been equally successful in driving out rheumatic and other pains.

Middleton was knighted by Her Majesty for his work at Batoche and other parts of the North-West. It is not improbable, that, when the merits of the *Sturgeon Oil Liniment* are made thoroughly known, *Dr. Dow* will be commanded to visit England to receive the accolade from Her Majesty's own hands at Windsor Castle.

Dufferin was perhaps the most popular Governor-General that ever filled the vice-regal chair at Ottawa. Still his popularity was as nothing compared with that given by its users to the fame of *Dr. Dow's Sturgeon Oil Liniment*.

Macdonald, Premier of the Dominion, is looked up to as a great statesman, and greatly admired by his followers and party. They all express the fullest admiration for his talents and statesmanship. Similar to this is the great respect expressed by the relieved sufferer for the great *Dr. Dow* who discovered the virtues of *Sturgeon Oil Liniment*.

Blake, the brilliant reformer, as the leader of the Opposition in the Dominion House is well known and admired by great numbers, just as the *Sturgeon Oil Liniment* is unequivocally praised by its users.

Sir William Dawson, Canada's greatest scientist, whose name is known wherever the language of civilization has penetrated, who has been honored by special notice from Queen Victoria herself, and been made President of the leading Scientific Association in the world, is not better known in Canada, his home, than is *Dr. Dow's Sturgeon Oil Liniment*.

Goldwin Smith has frequently cried out for the annexation of Canada to the United States. Were the professor attacked with acute rheumatism, and no *Sturgeon Oil Liniment* within reach he would probably cry out still louder.

Everybody should try it and be convinced.

PLANETS IN JUNE, 1887.—June opens with a conjunction of the Moon and Uranus on the 1st. Luna is with Jupiter on the 2nd. Uranus is "stationary" on the 16th, after which three conjunctions take place, viz.: the Moon with Neptune on the 18th, Moon with Mars on the 20th and Saturn with Mercury the same day. The Sun enters Cancer, and Summer commences at 1 p.m. on the 21st. Saturn is near the Moon on the 22nd and Jupiter is stationary the same night. Luna is near Venus on the 24th, and near Jupiter on the 28th. Uranus is 90° from the Sun—quadrature—on the 30th.

DR. WILSON'S TONIC AND SARSAPARILIAN ELIXIR

Cures Scrofula, Scurvy, Cancerous Sores and Ulcers, Scald Head, Syphilis, Salt Rheum, Cutaneous Eruptions, Catarrh, Canker, Epileptic Fits, Erysipelas, Female Complaints, Gravel, Derangement of the Kidneys, Jaundice, Indigestion, Dyspepsia, Liver Complaint, Faintness at the Stomach, Constipation, Piles, Palpitation of the Heart, Spinal Complaint, Prostration of the Nervous System, General Debility, &c.

For many centuries the aim of the experimenter, called by the ignorant "alchemist" and "magician" was to produce a medicine that should have in it the properties of prolonging or extending life. This medicine, when found, was to be named the *Elixir of Life*.

The ancients failed, and it was not until this present century, the age of great discoveries and inventions, that what is really a medicine with many of the properties that the fabled elixir was to have was produced by *Dr. Wilson*.

After long years of patient investigation, and many costly experiments, the word "EUREKA" became *Dr. Wilson's* exclamation, as, wearied with toil, about to give up the search, the secret yielded to his energy and the *Elixir* was the result.

To renew life when the sands of time are out is impossible; this the *Elixir* will not accomplish. There is a time to be born and a time to die, but the latter moment can be warded off to the utmost limit by removing all fatal diseases at the outset by doses of this all-searching, powerful yet mildly operating remedy.

A remedy that does not apparently work by violent means, whose effects are deep and searching, operating on every part alike and not alone on any single member or organ until the patient is a new person.

To cure permanently, the blood, the all pervading red fluid of life, has to be cleansed of all impurities. There can be no permanent change for the better until the life blood is cleansed. This the *Elixir* accomplishes.

By its use the system of the sufferer, however low, is renewed, all impurities are imperceptibly removed, and the patient, however low and weak, is inspired immediately with the hope of life, so essential in all cases to a cure.

It cures the most dangerous as well as the most repulsive diseases, being as it is a blending of the most valuable remedies known to chemistry.

As an alternative its effects are gradual but marked; the thin face fills out, the muscles harden, the eyes brighten, the voice strengthens, and the patient takes a new lease of life.

Have you scrofula? Then you have one of the diseases most destructive of health, looks and even life, handed down from generation to generation, the sins or the foolishness of the parents being visited upon the children for continued generations. If you have scrofula be advised at once and get *Dr. Wilson's Tonic and Sarsaparilian Elixir*. It is sure and safe.

Have you scrofula? You may have it and not know it. It originates in blood impurities, showing itself in many different forms. In some it runs to consumption, in others, it is consumption of the bowels, in others, it is water on the brain, in others, swollen glands, which finally break and if on the neck disfigure the patient for life. *Dr. Wilson's Tonic and Sarsaparilian Elixir* makes short work with each and all the above.

Have you scrofula? Of course you have; you there with that old sore, which positively refuses to heal, do all you will with it except the right thing, which is a trial of *Dr. Wilson's Tonic and Sarsaparilian Elixir*.

Have you scrofula? Yes, indeed, that ulcerous leg is a sure sign that the insidious disease has a firm hold of you. If you want to ever get well of that trouble you must take *Dr. Wilson's Tonic and Sarsaparilian Elixir*.

Have you scrofula? You think not. But you have it for all that. What do you call that eruption on the skin, with its soreness and itching. Isn't that scrofula? Of course it is. You will have to resort to *Dr. Wilson's Tonic and Sarsaparilian Elixir* right away or things are likely to go from bad to worse.

Have you scrofula? You say no. Nonsense, of course you have. What is the cause of those bleared eyes, that always look as if you had just escaped from a house on fire where the smoke had nearly blinded you? You don't know. Why it's as plain as noonday that scrofula has got you down and is amusing itself at your expense. Why ever don't you get *Dr. Wilson's Tonic and Sarsaparilian Elixir* at once and effect a cure?

Have you scrofula? Do you want a remedy? Eminent physicians say that *Dr. Wilson's Tonic and Sarsaparilian Elixir* is the best they ever used. These are men, too, with extensive practices, not hole and corner fellows whom nobody ever heard of. They know what they talk of, and are ready to stand by it.

Have you scurvy? It shows itself on land as well as on sea, and is characterized by livid spots on the skin, caused by extravasated blood, as well as by languor, loss of strength, pain in the limbs, etc. It has one efficacious remedy, however, which is *Dr. Wilson's Tonic and Sarsaparilian Elixir*.

Have you cancer or cancerous sores? They must be at once checked or your life will not be worth a straw. Constitutional treatment must be adopted, and *Dr. Wilson's Tonic and Sarsaparilian Elixir* taken.

Have you an ulcer? It needs external treatment but will never get well until the blood is made healthy as well. For this nothing equals *Dr. Wilson's Tonic and Sarsaparilian Elixir*.

Have you scald head? That nasty disease of the scalp, characterized by small light yellow pustules. If you have not got it your children may have. Your duty is to cure them, and to do this you will need *Dr. Wilson's Tonic and Sarsaparilian Elixir*.

Have you syphilis? Mercury will delay, not prevent the symptoms developing, which will follow in due order, if it is not for twenty years after the first exposure. Your only chance is a thorough course of treatment in which *Dr. Wilson's Sarsaparilian Elixir* forms the base of cure.

Have you salt rheum? Some call it eczema, but its just as painful under either designa-

tion. It is an eruption of small vesicles on the skin, set close or crowded together, and is frequently the result of general debility. It often follows eruptive fevers like scarlatina and measles. The most obstinate cases yield to *Dr. Wilson's Tonic and Sarsaparilian Elixir*.

Have you any skin disease whatever? Get the medicine here recommended and you will soon be rid of your trouble. *Dr. Wilson's Tonic and Sarsaparilian Elixir* makes the worst looking skin disease move off and the skin comes as fair as a little child's after a few doses.

Have you catarrh? That nasty discharge from the nose and head, usually the result of a neglected cold. You have. Don't try catarrh remedies, and fill your nose and mouth with disgusting powders or other vile trash, but take *Dr. Wilson's Tonic and Sarsaparilian Elixir*. Remember that a neglected catarrh often runs into a consumption that has to be attended to.

Have you epileptic fits? You have a brain disease then, which causes you to fall down at times all of a sudden in a convulsive stupor. You are likely to remain a martyr to these paroxysms until a course of *Dr. Wilson's Tonic and Sarsaparilian Elixir* has made you a new person.

Have you erysipelas? St. Anthony was supposed to cure it miraculously. But there is no supposition as to the way *Dr. Wilson's Tonic and Sarsaparilian Elixir* will get away with erysipelas.

Have you gravel? The disease grows gradually, and you may have it already and not be aware of it. Of course if it is already apparent, your pains are frequent and intense. In the latter case, long and faithful treatment is necessary or unbearable agony will result. All stimulants must be given up, and *Dr. Wilson's Tonic and Sarsaparilian Elixir* taken as a cure.

Have you kidney disease? It is the most deceptive of all complaints. Many say they have not when all the time they have it. It exists without one's knowledge, and manifests itself only to the more experienced in the symptoms of the commonest diseases, such as back ache, disorders of the stomach, headache, palpitation of the heart, occasional chills and fever, hot or dry skin, irregular appetite, sour stomach, loss of memory, rheumatism, bowel complaint, etc. If you have this trouble, lotions and plasters will not cure it. The system needs strengthening and the poison in it carried off by *Dr. Wilson's Tonic and Sarsaparilian Elixir*.

Have you jaundice? Then you want to get rid of your yellow eyes and skin, that bitter taste in the mouth, fickle appetite, languor and bad digestion. This you can do by doses of *Dr. Wilson's Tonic and Sarsaparilian Elixir*.

Have you indigestion? But of course you have. Everybody has it more or less, and everybody is in consequence interested in its cure. If the attack is severe, rapid eating, overloading the stomach, too much liquid food or drink and alcoholic liquors will have to be given up ere there can be a change. When this is done, take *Dr. Wilson's Tonic and Sarsaparilian Elixir* for a short time and there will very soon be a manifest change for the better.

Have you dyspepsia? It is the same thing as indigestion, and needs *Dr. Wilson's Tonic and Sarsaparilian Elixir* to effect a cure.

Have you liver complaint? Nearly all have and you are not likely to be an exception. The liver is a most important organ and is very easily affected by changes of the weather and the like. If you have you are not happy, because it is impossible to be subject to liver complaint and lead a happy life. You have got to take *Dr. Wilson's Tonic and Sarsaparilian Elixir* to cure it or be miserable.

Have you malaria? This is chronic inflammation of the liver. If you have, live soberly, avoid all alcoholic stimulants, keep quiet and don't get excited, rub the stomach with a coarse towel two or three times daily, open the bowels and keep them open with *Dr. Wilson's Family Anti-Bilious and Preserving Pills* and use *Dr. Wilson's Tonic and Sarsaparilian Elixir* also until the liver's tendency to congest is cured.

Have you Cirrhosis? Your liver has become deformed, and you are in a bad way indeed. You feel little interest in life, have a parched, yellow skin, dry, red tongue. The only course of treatment is abstinence, *Dr. Wilson's Anti-Bilious and Preserving Pills* and *Dr. Wilson's Tonic and Sarsaparilian Elixir*. The body over the liver should be frequently rubbed with olive oil.

Have you faintness of the stomach? It is due to weakness and is accompanied by additional disagreeable sensations. To get rid of it take *Dr. Wilson's Tonic and Sarsaparilian Elixir*.

Have you constipation? It has been brought on by neglecting the calls of nature, the bowels being thereby disturbed in their proper working. The trouble often involves the liver and stomach, and a general unhealthy condition is the result. Open the bowels with *Dr. Wilson's Family Anti-Bilious and Preserving Pills*, and tone up the system with *Dr. Wilson's Tonic and Sarsaparilian Elixir*.

Have you piles? If you have why not try to cure them. Forego all highly spiced and seasoned foods, avoid liquors, attend to the action of the liver as piles are caused by its not working. This is accomplished by taking *Dr. Wilson's Family Anti-Bilious and Preserving Pills*, together with the all useful *Dr. Wilson's Tonic and Sarsaparilian Elixir*.

Have you palpitation of the heart? It must quickly cease by your taking *Dr. Wilson's Tonic and Sarsaparilian Elixir*.

Have you spinal complaint? The *Tonic and Sarsaparilian Elixir* is especially designed to suit your case.

Have you prostration of the nervous system? Then you are to be pitied. Everything has assumed a hopeless look with you, no matter how bright and promising matters really are. You are fretful, weak and miserable, and in fact, life has grown to be a burden and nothing less. This must not go on, you must get relieved. *Dr. Wilson's Tonic and Sarsaparilian Elixir* is your safe-guard against worse evils as well as your certain restorative to health and strength.

Have you general debility? You are in consequence weak and languid, the mere semblance of what you should be. Change this. Return and fill your proper sphere in the world as a useful member of society. Be no more a mere look-on at life, but live in earnest. Get *Dr. Wilson's Tonic and Sarsaparilian Elixir* and commence the needed change at once.

Have you general weakness? Nothing in particular ails you, but you seem to feel as if you did not care very much to retain your hold on life. As the Preacher so aptly put it in the days of old, "even the grasshopper becomes a burden and desire fails." You may have all that heart or mind can wish, yet care not for it. Nothing whatever seems worth while caring for. What is the cause? General weakness may have many causes, it can have but one general remedy which is undoubtedly the famous *Tonic and Sarsaparilian Elixir* compounded by *Dr. Wilson*.

Have you sickness of any kind? Almost everyone suffers from some ailment. Whatever may be the matter with you it is five hundred chances to one that a bottle of *Dr. Wilson's Tonic and Sarsaparilian Elixir* will greatly benefit you. Get one and try it. If you do, there is one thing certain, you will never regret so doing.

TO OUR LADY READERS.

After enumerating the foregoing diseases, all of which the magnificent Tonic and Sarsaparilian Elixir of Dr. Wilson is potent to cure, it must not be supposed for a moment that diseases are all told.

Of the utmost value to the male portion of the population in the numerous diseases that afflict them, Dr. Wilson's Tonic and Sarsaparilian Elixir is just as necessary to the gentler sex in their many ailments.

Disease layshold easier on women than on men, until it has become almost unusual to find a woman in perfect health.

Why is health so rare amongst the female population of Canada? Imperfect hygienic surroundings, and the necessity of their remaining amidst them, in contradistinction to the male population whose lives are spent more away from home and out of doors than within four walls.

Fresh air is an imperative necessity for all, and out of door exercise is recommended for those who feel themselves gradually growing less and less able to cope with the cares and labors of life. Judicious doses of Dr. Wilson's Tonic and Sarsaparilian Elixir are also recommended at the same time.

The beautiful young girl not infrequently fades almost imperceptibly away, grows feeble and ill, and finally succumbs.

The happy mother amidst her anxious duties begins to find life a burden and sinks on the way, leaving a young family of hopeful and promising olive branches to mourn her untimely end.

Such experiences are unnecessary, in fact, they are unnatural. Woman, as well as man, was born to be healthy and to enjoy life. If she does not, it is frequently very much her own fault. Where health is impaired nothing will more quickly restore it than Dr. Wilson's Tonic and Sarsaparilian Elixir.

Nervous irritation is greater amongst women than men, and the many female disorders and weaknesses that attack womanhood are of a peculiarly painful nature.

There is menstruation, those times of periodic weakness, when a nerve tonic is particularly needful and when taking proper and well timed doses of Dr. Wilson's Tonic and Sarsaparilian Elixir as a means of strength becomes one of the duties of life.

There is displacement of the uterus, caused generally by debility, or sometimes by tight lacing, strains, falls, constipation, etc. There is great pain in the back, bearing down pains and an inability to walk. Bandage the parts, remove all probable causes, and tone up the system with Dr. Wilson's Tonic and Sarsaparilian Elixir.

There are ovarian diseases, produced by the unnatural strain on the parts by running sewing machines, or through the drugs given to bring on a miscarriage. As a cure, take the Preserving Pills and a course of Dr. Wilson's Tonic and Sarsaparilian Elixir.

There is leucorrhœa, from which many ladies suffer. It is very weakening, draining as it does the very life from the system, leaving the sufferer entirely prostrate. Take regular doses of Dr. Wilson's Family Pills and Tonic and Sarsaparilian Elixir in order to effect a cure.

There is uterine hemorrhage, or bleeding from the uterus at other times than those of the monthly periods. This is caused by general weakness, exhaustion, congestion, excesses, miscarriages, etc. Bathe the affected parts in cold water, observe

a plain, nutritious diet, and take Dr. Wilson's Sarsaparilian Elixir to restore the system.

There are ulcerations of the uterus, common among all classes, the symptoms being usually a depressed state of feeling, headache, languor, mattery discharges, pains in the abdomen, indigestion, irregular action of the bowels and disordered menstruation. To cure keep the bowels regular with Dr. Wilson's Preserving Pills, and take, in order to purify the blood and build up the system generally, Dr. Wilson's Tonic and Sarsaparilian Elixir.

In a very short time, in the majority of all the above diseases, health, the greatest of earthly blessings, will take the place of weakness and disease, all traces of sickness will disappear, and the relieved patient will bless the day when first directed to use Dr. Wilson's Tonic and Sarsaparilian Elixir.

Cleopatra, who so captivated Antony, is said to have been marvellously beautiful. Cleopatra must in consequence have been healthy. Without health there can be no lasting beauty. Beauty powders and cosmetics, were as much used in those days as now. The ancients, however, had no knowledge of so important a preparation as Dr. Wilson's Tonic and Sarsaparilian Elixir.

Mary of Scots was so lovely that she awoke the mortal enmity and jealousy of the rival Queen Elizabeth, ending her days on the scaffold, simply because she was beautiful. The world nowadays prizes its beautiful women too highly to allow them to be executed by a jealous rival. Besides the rival herself can make herself very much better looking by cultivating good temper, the arts that please, and taking a few doses of Dr. Wilson's Tonic and Sarsaparilian Elixir.

Ninon del' Enclos was more beautiful at seventy, than many another of her sex at the age of twenty-five. All men who saw her became entranced. Even her own son was enamored of his mother. All Canadian ladies are not Ninon del' Enclos, but all are able to approach much nearer the standard of good looks of the incomparable Ninon, by freely using Dr. Wilson's Tonic and Sarsaparilian Elixir.

The Jersey Lily is perhaps one of the most celebrated beauties of the present day. Hardly any person exists where the English language is spoken, but has heard of her charms. If ladies wish to be more like Lily Langtry in looks, they should first aim at perfect health and an equable condition, which are best obtained by taking Dr. Wilson's Tonic and Sarsaparilian Elixir.

Good looks, good health, and good temper, are three things not by any means to be despised. Those ladies, who feel that they lack any one of these blessings, should purchase Dr. Wilson's Tonic and Sarsaparilian Elixir.

Good looks are obtainable by a proper attention to diet, non-exposure to cold, and a healthy condition of the skin whereby the emanations from the system are rapidly disposed of. Without these conditions sickness must ensue, and no one can be good looking long if suffering. Good looks are obtainable by the use of Dr. Wilson's Tonic and Sarsaparilian Elixir.

Good health is obtainable, and the weakest of the sex need not despair until having first given a thorough trial to Dr. Wilson's Tonic and Sarsaparilian Elixir. It is a glorious reinvigorator and has often done wonders for ladies in failing health.

Good temper is obtainable. Those that are weak and sick are necessarily peevish and fretful. Life is a miser that sometimes seems unbearable. All that is needed is a few doses of Dr. Wilson's Tonic and Sarsaparilian Elixir.

In purchasing, see that you get it, and take no other.

7th MONTH.

JULY.—31 Days.

Begins on Friday.

PLANETS IN JULY, 1887.—Mercury is well placed for seeing during the evenings of the early part of the month, as is also Venus, the latter reaching her greatest elongation E. of 45° 33' on the 13th. Saturn passes behind the Sun on the 18th, and the Moon is in conjunction with Mars the same evening. Jupiter is 90° (Quadrature) from the Sun on the 19th, after which the Moon passes near Saturn on the 20th, Mercury on the 21st, Venus on the 23rd, Uranus on the 25th and Jupiter on the 26th. On the 28th Mercury passes his inferior conjunction between the Sun and Earth.

DR. WILSON'S CRAMP AND PAIN RELIEVER

Applied externally cures Ague in the Face, Bruises, Scalds, Sprains, Frost Bites, Toothache, Felons, Neuralgia, Rheumatism, Lumbago, Diphtheria, Stings of Insects, Boils, etc. **Taken internally cures** Coughs, Colds, Sour Stomach, Heartburn, Indigestion, Cankered Mouth and Stomach, Pain in the Kidneys and Back, Sea-Sickness, Cramp and Pain in the Stomach and Bowels, Diarrhoea, Cholera Morbus, Cholera, Vomitings, Sore Throat and Diphtheria.

It is a vegetable remedy, pure and harmless in its action, not a mineral poison.

It is a pain curer, not a pain killer or deadener for a little while, after the application of which the pain returns in greater violence.

It removes the cause of the trouble, and does not destroy the nervous system, or paralyze the body.

It secures permanent relief, not temporary quietude, which is a very different thing.

It stops pain and leaves nothing more to be desired by the sufferer who has perhaps already tried half a dozen or more worthless remedies.

It is a diffusive stimulant, getting rid of the congested blood at the parts inflamed and restoring the circulation to its proper, or normal condition.

It is rapid in its action and does not need fifty or more applications ere relief is experienced.

In cold weather the searching breath of winter causes frequent frost-bites. To cure them, rub on *Dr. Wilson's Cramp and Pain Reliever*.

In hot weather, when the festive mosquito presents its little bill, always have *Dr. Wilson's Cramp and Pain Reliever* on hand, it is a sure remedy.

Bruises and sprains are often serious if not attended to. The former may turn to cancer or mortification, the latter to dislocation or inflammation. To prevent this, use liberally *Dr. Wilson's Cramp and Pain Reliever*.

Boils are bothersome things as well as irritating and painful. They usually come owing to bad blood, and are cured by using *Dr. Wilson's Pills and Cramp and Pain Reliever*.

Neuralgia is really the nerves paining, and comes from an acid condition of the blood, which frequently affects the head and teeth to a terrible degree. Use *Dr. Wilson's Tonic and Sarsaparilian Elixir* to restore the nervous system, together with local applications of the *Cramp and Pain Reliever*.

Rheumatism is a blood disease, inflaming the blood and joints. The affected parts often swell and are very painful to the least touch. It is caused by acid in the blood, which must be removed by internal doses of *Dr. Wilson's Tonic and Sarsaparilian Elixir* and by local outward applications of the *Cramp and Pain Reliever*.

Pain in the stomach and constant vomiting of food, accompanied by hiccups, paleness, faintness, shortness of breath, thirst, cold extremities, etc., is akin to dyspepsia and may be treated either with the *Tonic and Sarsaparilian Elixir* or with *Dr. Wilson's Cramp and Pain Reliever*.

Diarrhea in its most troublesome and painful features is checked by using *Dr. Wilson's Cramp and Pain Reliever* internally.

Cholera attacks without warning, except by diarrhoea and vomiting. These must be checked, or collapse follows. The patient should be wrapped in hot flannels, laying bottles of hot water against

these, persevering in rubbing the body. Give frequent doses of *Dr. Wilson's Cramp and Pain Reliever*, and remove the evacuations as far from the house as possible.

Pains in the back may be the result of a strain, a cold, or kidney disease. If the former, rub with *Dr. Wilson's Cramp and Pain Reliever*, it is a sure remedy. If the latter, the *Tonic and Sarsaparilian Elixir* is the proper thing, taken internally.

Diphtheria, which increases in malignity every moment the attack is not checked, should be encountered, ere it becomes more than a serious sore throat, by a gargle of *Dr. Wilson's Cramp and Pain Reliever*. It should also be applied outside the throat, as well as being taken internally as a medicine, where it will stimulate the general circulation.

Cramps, colic, and other bowel disorders, will yield at once to the *Cramp and Pain Reliever*.

Dysentery will be properly arrested by saturating a flannel with *Dr. Wilson's Cramp and Pain Reliever* and applying it to the abdomen.

In fact, this powerful remedy prevents the development of pain, stops the effects of sudden colds from being felt, cures internal pains, destroying the causes thereof.

Watt studied steam and its application by watching a kettle boiling on the fire and sending up its volume of vapor. From this study the locomotive emanated. Many a child, since the days of Watt, has watched the steaming kettle to its cost, and attempted to quench its thirst from the spout. Sad cases of scalding have resulted. If you have a kettle and a child at the same time in your house, it is imperatively necessary to also keep on hand a supply of *Dr. Wilson's Cramp and Pain Reliever*.

Toothache is universally dreaded. It is such a gnawing, restless, wearying pain, that one suffering from it is almost driven to desperation. Generally speaking, bad as the pain is, very little sympathy is shown the sufferer by friends. *Dr. Wilson* was an exception in this case, however, and because of the many sufferers from toothache and similar maladies, decided to produce a safe cure. The result was his *Cramp and Pain Reliever*.

Coughs and colds are readily relieved by a few doses internally of *Dr. Wilson's Cramp and Pain Reliever*.

Sour stomach and heartburn are dyspeptic troubles. All they need, generally speaking, is *Dr. Wilson's Cramp and Pain Reliever*.

Vomiting frequently affects married ladies at certain periods. These morning sicknesses are not of a nature generally speaking to cause concern; especially to those who have taken the forethought (as all should) to lay in a supply of *Dr. Wilson's Cramp and Pain Reliever*.

Travellers by lake or sea should never sail without it, since it is a sovereign remedy against vomiting and sea-sickness. For all the above reasons, *Dr. Wilson's Cramp and Pain Reliever* is unquestionably one of the most valuable remedies of the age.

8th MONTH.

AUGUST.—31 Days.

Begins on Monday.

PLANETS IN AUGUST, 1887.—On the 3rd the Moon is eclipsed. Mercury is stationary on the 8th, and Venus at "greatest brilliancy" on the 15th. Mercury will be seen in the morning before sunrise on and around the 16th. The Moon is near Mars on the 16th, Saturn on the 17th, and Mercury the same day. The Sun is eclipsed on the 18th. On the 21st Venus is near the Moon as well as at "Aphelion." The Moon is close to Uranus on the 21st, and to Jupiter on the 23rd. Neptune is 90° from the Sun on the 23rd; Mercury in Perihelion, 24th; Mars and Saturn in close conjunction in the morning sky on the 28th and Venus "stationary" on the 31st.

ROBERT'S EYE WATER.

The light of the body, the eye, is perhaps the most sensitive organ of the whole human system. Placed as it is in direct connection with the brain, it is necessarily immediately after affected when anything goes wrong, owing to the brain being the source of feeling.

Of recent years loss of sight and particularly dimness of vision have become alarmingly prevalent. Partly from improper care in youth, but owing principally to neglect and abuse of the visual organs.

Scarcely one in twenty now have perfect vision, especially in cities. Many think that they have, and are not undeceived until perhaps too late, when a visit to an oculist—costing considerable—reveals the truth.

Inflammation is the first, or what may be termed the primitive stage of eye disease. It begins with an itching, then an acute pain, with the feeling that a mote has got on the ball, which cannot be rubbed out.

The blood vessels become charged with blood, the light of day becomes painful, the eye fills with water, and, by-and-by, if not checked, matter exudes.

The membrane is thickened by the trouble, and partial blindness results, which may become total if not checked. To avoid this, use *Robert's Eye Water*.

Red eye, as this disease is called, is contagious in its exuding stage, and a child who has it, should not be allowed to use the same towel as others.

Inflammation of the eye should be carefully treated as follows:—

The eye should first be bathed with warm milk and water—say two or three times daily—then let the head be held well back, so as to give *Robert's Eye Water* a chance to run into the eye; then, having first diluted *Robert's Eye Water* with an equal portion of soft water free from specks, let a few drops be run into the inner angle of the eye, separating the lids with the fingers, then pulling slightly first the lower lid and then the upper one, so that *Robert's Eye Water* may have full contact with the surface of the eye-ball, and also with the inner surface of the eye-lids, as the inflammation extends throughout.

Persons must be careful to properly attend to this apparently insignificant operation, as many of the failures to cure which are charged upon *Robert's Eye Water* are really the result of carelessness in its use, the *Eye Water* being allowed to run away over the face, and never coming in contact with the inflamed surfaces at all.

The first acute inflammation over, the quantity of pure water added to the *Eye Water* may be decreased gradually, until it is used in its full strength, the object being not to produce more than a slight smarting after the first application at night on going to bed, until the acute symptoms have subsided. If a teaspoonful of *Robert's Eye Water* be added to two or three table-spoonfuls of hot water, and a compress of old linen be wet with it, and bound over the shut eyes, it will hasten the cure much.

Follow these directions with perseverance and the worst case of red eye will be cured. This is a well known fact, affirmed by many who have used *Robert's Eye Water*.

Spots on the sight are due to weakness. Bathe the eyes with *Robert's Eye Water* as needed, and take internally as a strengthening remedy *Dr. Wilson's Tonic and Sarsaparillian Elixir*.

Weak eyes are often constitutional. They are due to a scrofulous taint in the blood. Piercing the ears will scarcely cure; the best remedies are *Robert's Eye Water* and *Dr. Wilson's Tonic and Sarsaparillian Elixir*.

Styes and other local inflammations are most readily destroyed and dispersed by the use of *Robert's Eye Water*.

Sore eyes in children are a frequent source of concern to their parents. They are usually due to a scrofulous taint in the blood, which, as in the case of adults, must be got out by using *Dr. Wilson's Tonic and Sarsaparillian Elixir* in conjunction with *Robert's Eye Water*.

Pure air in any quantity must be allowed the child, or it will not get well, neither must it be in any wise stinted as to its diet, which must be at the same time generous and wholesome.

By not yielding easily to the usual remedies the disease declares itself due to scrofula, showing the blood impure.

There can be no cases of sore eyes in children but must sooner or later yield to the combined virtues of *Dr. Wilson's Tonic and Sarsaparillian Elixir* and *Robert's Eye Water*.

The best medical authorities approve of this *Eye Water*, declaring its chemical composition to be excellent, as well as safe, and just the right thing to use in all cases of inflammation of the eye.

Old persons even, troubled with sore eyes from their childhood, have been perfectly cured by the use of *Robert's Eye Water*.

Nor need this be wondered at, when it comes to be remembered that this magnificent *Eye Water* is the result of experiments by a celebrated oculist, who, with this *Eye Water* alone, rescued more persons from becoming blind than with all his other medicines and operations put together.

Although powerful for good, it is powerless to harm, and herein *Robert's Eye Water* differs from the many puffed up lotions that are declared infallible and harmless, whereas they are liable, if a sore exists, to poison the adjacent flesh and leave an ugly sore behind, as well as permanently to damage the eye and its sight.

The blue eye is said to tell of love, gentle sympathy, emotion and truth to the very bottom of its limpid depths. It often goes with the rarest faces of earth. Sometimes, however, the bluest eye reddens. Then is the time to apply the all healing *Robert's Eye Water*.

The gray eye is sometimes mischievous, but more often is calm and clear, belonging to one who reasons as well as feels, who talks brilliantly, and who is filled with the fire of friendship. Ever awake to the behests of duty, the owner of the gray eye knows that if she abuses her eyesight, the best thing for her to do is to use *Robert's Eye Water*.

The hazel eye is held to indicate brain power, temper, spirit and passion. Its owner is useful and intellectual, an inspirer of sentiment. The hazel eye, however, languishes sometimes. When this is the case apply *Robert's Eye Water*.

Men's eyes are not as beautiful as women's, but they are quite as important. It would never do for the bread winner of a family to suffer from impaired eyesight. At the first intimation of soreness or inflammation, then, bathe the eyes with *Robert's Eye Water*.

It is obvious, from what has been said, that the proper thing to do, in all cases of sore eyes, is to get *Robert's Eye Water* and give it a trial.

9th MONTH. SEPTEMBER.—30 Days. Begins on Thursday.

PLANETS IN SEPTEMBER, 1887.— Neptune is stationary on the 2nd, and near the Moon on the 8th. Mercury passes behind the Sun on the 10th. The Moon passes near Saturn on the 13th, Mars the next day; Mercury is near Venus on the 15th and the Moon near them both on the 17th. Luna is beside Uranus on the 18th, and passes Jupiter on the 20th. Venus is at inferior conjunction—between the Sun and Earth—on the 21st. The Sun enters Libra and Autumn commences on the 23rd, and Mercury is alongside Uranus on the 24th.

DR. WILSON'S PERSIAN SALVE.

A fair and beautiful skin is considered, and rightly, one of the chiefest beauties. Who that has it, but is proud, who that is without it, but desires to obtain it? Those who have not a perfect skin, but on the contrary, are disfigured by one or the other of those peculiar diseases which affect it, should see that they attempt a cure at once with *Dr. Wilson's Persian Salve*.

Pimples are one of the earliest signs of impure blood, and are usually noticed on the faces of young and old of both sexes.

People become overheated, perspire freely, are suddenly exposed to cold air, which checks perspiration, closes up the pores, the natural waste or decomposition is stopped, and, retained under the outer skin, causes irritation and inflammation, which breaks forth in the form of pimples. The *Persian Salve* will restore the skin to its original appearance, stopping irritation and itching as it does so.

Skin paints and cosmetics are all more or less injurious and should not be used. They turn the whitest complexion yellow and sallow in a short time, clogging up the pores and perhaps causing paralysis.

Spots in the skin are unsightly as well as irritant. The lymph is full of impure humor, is at length impregnated with life, and becomes an insect. The pores, to get rid of these have to be opened, this can be done by applications of warm water, followed by one of the *Persian Salve*. To prevent the blood again becoming impure, in every case *Dr. Wilson's Anti-Bilious and Preserving Pills* and *Dr. Wilson's Tonic and Sarsaparilian Elixir* should be taken.

Prickly heat is frequently troublesome to persons in summer time who perspire much. It is the result of acrid humor, obstructed perspiration and the irritating properties of the sweat itself. The annoyance can be at once removed by anointing the parts affected with *Persian Salve*.

Ulcers also indicate a bad condition of the blood, and to cure them need, internally, *Dr. Wilson's Tonic and Sarsaparilian Elixir*, and externally, *Dr. Wilson's Persian Salve*.

Boils are another evidence of bad blood. They usually have a head, whence matter finally exudes. Poultice, and, between the poultices anoint with *Persian Salve*.

Carbuncles usually appear in the neck, having several heads, and are accompanied by a fever, owing to the reabsorption of the ulcerated matter. Poultice and lance the carbuncle, anointing it frequently with *Persian Salve*. *Dr. Wilson's Preserving Pills* will be needed to alter the condition of the system, and *Dr. Wilson's Tonic and Sarsaparilian Elixir* to tone it up afterwards.

Burns should be immediately treated, the *Persian Salve* being at once applied, when immediate relief will be experienced. The part affected, if kept covered from the air, will have no scar on healing.

Itching of the skin is helped by rubbing with a coarse towel, after which an application of *Dr. Wilson's Persian Salve* will have the immediate effect of procuring relief.

The origin of healing applications is wrapped in a veil of impenetrable darkness, the facts connected with its introduction being forever obscured by the flight of ages. The origin of the all healing *Persian Salve*, however, lies at *Dr. Wilson's* door.

All trace of the first physician is gone, but whoever he may have been, and however pure his remedies and simples, they could not have been

more efficient and pure than these of *Dr. Wilson*, whose famous *Persian Salve* is purity itself.

Man appears to have always needed aid from his physicians, one disease may have spent itself, but only to make way for another. The simplest remedies have often been found the most efficacious, and for this reason *Dr. Wilson's Persian Salve* stands pre-eminently forth in the front rank.

Fashion is followed in medicine as in all things else. What suited the ideas of two thousand years ago, when Greece and Rome flourished, would not suit the nineteenth century with its new and peculiar notions. But the healing virtues of the *Persian Salve* are always the same, no matter if it be under the tropical sun of India or amidst the icy regions of Greenland.

Those troubled with any of the afflictions which the *Persian Salve* has been specially designed and perfected to cure, will not fail to use it again, if once brought into the house, and a fair trial given. This may be said of all the other specifics described in this volume.

No bold and hasty conclusion has been reached in perfecting and placing this magnificent *Salve* before the public of Canada. Many were the experiments and trials it was put to before *Dr. Wilson* finally found that his discovery was a perfect one.

Its utility has been repeatedly proved by practice, by thousands of persons in all conditions of life, and has been of great use in the removal of those troubles it is designed to cure.

Therefore, whoever desires a fair and beautiful skin should see to it that *Dr. Wilson's Persian Salve* is used in all cases.

Those especially whose profession leads them to be constantly before the public will find it much better to use *Dr. Wilson's Persian Salve* than to stop up their pores and ruin their complexion with cosmetics, calculated only to destroy.

No salve before the public can in any way be compared to it.

No salve so readily reduces inflammation and soothes pain.

No salve so relieves the continuous itching of the afflicted parts.

No salve is as sure, safe and speedy, as that of *Dr. Wilson*.

No salve equals it for purity, therefore be sure you get *Dr. Wilson's Persian Salve* when you visit your druggist.

No salve is of equal efficacy, and it is absolutely necessary that persons asking for *Dr. Wilson's Persian Salve* should get it.

No salve has had as much time, thought, labor and expense taken up in its production as the *Persian Salve* perfected by *Dr. Wilson*. There is none other like it.

Physicians concede that *Dr. Wilson's Persian Salve* is one of the best ointments extant.

Druggists who deal in it, tell marvellous stories of its efficacy.

People who have used it have a similar account to give of it. They will at once tell you that they never used anything before at all equal to *Dr. Wilson's Persian Salve*.

Never be without it in the house. You never know what may happen. Prevention is better than cure, but when a scald, burn or other accident has happened, cure is best. To cure, *Dr. Wilson's Persian Salve* comes in handy.

FRENCH MAGNETIC OIL.

Magnetism is the most powerful of all known forces. By it the navies of a world are governed, speeding in abject reliance upon it, from and to the uttermost parts of the earth.

Without it, there could be no progress in the way of turning the Atlantic Ocean into a ferry, whereon steamers glide as safely as the boats on a smooth canal.

Columbus, the discoverer of the American Continent, would never have dared go beyond the sight of the shores of Spain had he not been provided with the magnetic needle as a guide.

Jacques Cartier, first voyageur into the Gulf and River St. Lawrence must have remained at St. Malo, and Canada might have remained unpeopled to this day, without a mariner's compass.

Blessings may be showered on the head of the perfecter of this invention, as well as on a not much less beneficial discovery, that of the famous *French Magnetic Oil*.

Magnetic currents are the life blood of the earth, forever flowing backward and forward from equator to pole. *Magnetic Oil* is more than the life blood of jaded human nature, it is the restorer to health.

Magnetic storms, when the brilliant aurora flames forth, arching the heavens in glorious grandeur, are not of frequent occurrence, but when they do take place are remembered because of their peculiarity and beauty.

The sun's intense heat causes magnetic storms. Storms on the sun create magnetic storms on the earth.

Sympathy is found amongst bodies celestial, even as between terrestrial bodies. By a knowledge of the sympathy between the ingredients that go to form the *French Magnetic Oil* and the forces and tissues of the body, was its inventor led to place it before the public.

Paris, whose medicinal achievements are, and have been for years, the marvel of the civilized globe, produced the wonderful *Magnetic Oil*.

The home of Pasteur, whose great achievement in the way of curing that most terrible disease, hydrophobia, has the honor of also giving to the world the *French Magnetic Oil*.

Magnetic energy, stored in illimitable quantities in the central orb of the solar system, the sun, is diffused and taken up all around by the family of planets of which our earth is third in distance from the fiery central orb.

Some go so far as to declare magnetism or electricity spirit, and if spirit, the nearest approach to God-like power that we know of. Instantaneous in its effect, it leaves no time for alteration of purpose and in this it is akin to the *French Magnetic Oil*.

The planets are magnets, each acting on the other. The earth itself a planet, is a magnet, and as such, has many things very highly magnetized. Magnetism is stored in certain vegetables and minerals more than in others, these, properly blended have been taken, and the *French Magnetic Oil* is the result.

The influence of every planet, or its electro-magnetism—affects every other orb within the reach of its magnetism. Thus it is with the *French Magnetic Oil*, its influence immediately reaches and expels pain, whether at the surface or deep seated in the flesh, bone or tissues.

Nerve force is magnetism, magnetism is electricity, electricity may be spirit, that which subjugates the flesh and bids it act according to the will. The *French Magnetic Oil* subjugates pain.

Colds are easily relieved by the *French Magnetic Oil*.

Cramps yield at once to the influence of *French Magnetic Oil*.

Pains in the stomach, which may be the forerunner of that fatal disease cholera—cannot long withstand the application of *French Magnetic Oil*.

Rheumatism, chronic or acute, is a disease which magnetism readily affects, and in consequence wonderful cures of these painful and troublesome complaints have been recorded by the use of *French Magnetic Oil*.

Lumbago is a racking torture, the demon brother of rheumatism. It flies before the application of *French Magnetic Oil*.

Sciatica, produced by a similar cause, is of the same family and cannot withstand *French Magnetic Oil*.

Neuralgia, a trouble that affects those whose nerves are unstrung by sickness, weakness or general debility, needs the *French Magnetic Oil* to cause it to depart.

Life itself is revived by the wonderful *Magnetic compound*, and those who take no interest in the world, owing to sickness, find a new zest in living after one or two applications of the *French Magnetic Oil*.

Force, which makes all worlds move, is the energy of the human system. If lost, to gain it once more, *French Magnetic Oil* is often necessary.

Flatulence, is a frequent trouble owing to the weakness of the stomach and intestines. These need energizing and magnetizing to properly perform their duties. To accomplish this purpose, no remedy equals *French Magnetic Oil*.

Diarrhea is caused by a disturbed condition of the animal magnetism.

Dysentery, a very trying disease, is allied to it.

Cholera, so terribly and rapidly fatal in its results, and

Colic, may be cured by proper treatment with the *French Magnetic Oil*.

Take it, in teaspoonful doses, always adding molasses and water to it, to keep it in combination, and repeat every half hour till relief is experienced, at the same time rub it in outside thoroughly and persistently.

It cannot fail if this is done, and the sufferer will experience not only immediate, but permanent relief from aches and pains.

In cases of cold, influenza, etc., the *French Magnetic Oil* should be taken in doses of one teaspoonful in molasses and hot water, frequently at first, till it brings on sweating, and afterwards at intervals of two or three hours, it will be found to be the surest and speediest remedy; at the same time bathe the throat and chest freely and frequently with it, smelling the bottle frequently also if there is headache.

Local muscular pains are speedily relieved as are also the

Growing pains in children, whose little limbs are magnetized and strengthened greatly by the *French Magnetic Oil*.

Pain in the back or side cannot last after the *French Magnetic Oil* has been brought to bear on them.

In these cases just rub the *French Magnetic Oil* well into the parts affected, wet a piece of flannel in the Oil, and keep it applied to the part, and give one or two doses internally.

Bruises and contusions, the result of blows and falls, are rapidly reduced to a normal condition by the use of *French Magnetic Oil*.

Chilblains and frost bites, no matter how severe, or how cold the weather may have been which caused them, will be speedily overcome, and the skin restored to its original condition by *French Magnetic Oil*.

Sore throat, quinsy, diphtheria and other diseases resulting from the gorging of the glands, should be treated by rubbing the *French Magnetic Oil* upon the outside of the throat thoroughly, then applied on some folds of linen—used as a gargle, one or two teaspoonfuls diffused in a half teacupful of milk or barley water frequently. Where the pain is at all severe a teaspoonful in molasses and water may be taken with advantage every three or four hours.

Enlarged veins need careful treating with the *French Magnetic Oil* if they are ever to be cured. They should be bathed well two or three times daily from the foot up towards the body, and then supported by a well-fitted bandage, or an elastic stocking.

Chronic ulcers, hard as they generally are to cure, often yield to the curative properties of the *French Magnetic Oil*.

Mothers of Canada! To you also the *French Magnetic Oil* is offered as a sovereign cure for some of the ills to which you are frequently liable.

If just risen from the couch of maternity, the least breath of cold air may result in severe trouble, should it reach the breast.

Lumps and gatherings will form, growing harder, larger and more painful day by day.

To cure these, have them well rubbed down from the root of the breast to the nipple with the *French Magnetic Oil*, and then apply it on a fold or two of flannel, repeating this operation every two or three hours. It will soon be found that the pain and heat are relieved, the glands softened, and that the milk can be drawn thoroughly and without pain.

How much less painful it will prove, thus taking in time these swellings in the breast, than leaving them to become gatherings, which, after excruciating tortures have to be poulticed and lanced.

The life of your babe may depend on this not being allowed to happen. If the milk congeals, there remains no food for the child, and it consequently must slowly starve to death unless willing to take to the spoon or bottle, which many children refuse.

If it continues to suck, the milk from the bad breasts is simply poisonous, and the child will in consequence grow fretful, pine away and finally die from poisoned blood and starvation. Will you allow this, when *French Magnetic Oil* can be obtained for money?

Milk leg is another disease incidental to the cares that attend maternity. To cure it, however, the *French Magnetic Oil* is at hand. We recommend the bathing of the sore limb well, but softly, with it, and then encasing it in a sheet of batting, where it should be kept lying as high as the body. Repeat the application every six hours or thereabout, till the pain is relieved. After attending to the state of the bowels, if there is much pain, give the *French Magnetic Oil* internally in teaspoonful doses, mixed with molasses and water, every three or four hours, or as often as appears necessary to keep the pain down, and the patient easy.

This specific has already been a great boon to suffering humanity, and many testimonials have been received concerning its wonderful virtues. For those of a high-strung nervous temperament, who are highly magnetized, in fact—and who suffer acutely at the least change, no medicine can compare with the *French Magnetic Oil*.

To stock raisers it is of more importance than the quarantine regulations, which keep United States' stockmen from sending cattle into Canada and so importing pleuro-pneumonia or some other pest which would shut the British Markets on their stock.

To the farmer the Oil is of great use in the way of relieving his stock.

A valuable horse may have a bruise, a strain, garget, colic or belly-ache.

A costly cow may be suffering severely and likely to die. At such times the farmers of Canada say that their best friend is the *French Magnetic Oil*.

To the pet stock-keeper the *French Magnetic Oil* is worth any amount. Animals of all kinds are liable to hurts and bruises, and nothing will relieve them so readily as a judicious use of this specific.

Agents who sell French Magnetic Oil say that it gives the fullest satisfaction in every case.

Customers who buy French Magnetic Oil know that there is nothing to equal it.

Those who have never tried it should do so at the earliest opportunity. They will be delighted and astounded at the marvellous effects of *French Magnetic Oil*.

Those who have tried it need not be told how to act. They are sure not to be without a bottle of *French Magnetic Oil* in the house.

Chemists and Druggists all over Canada write that it not only sells exceedingly well, but is a most popular and useful remedy, giving the best satisfaction. In fact, they say that nothing pleases their intelligent customers so well as the *French Magnetic Oil*.

One reason is because it never fails to act as desired.

Another reason is because it is far before all other remedies.

Many painful complaints, too numerous to recapitulate, succumb after repeated applications of the *French Magnetic Oil*.

Assured in success the *French Magnetic Oil* has distanced all competitors.

First in the race for popularity, everybody acknowledges that there is nothing to equal it.

Terre Novans say it is the best thing east of Boston.

Nova Scotians know it to be worth more than separation to them.

New Brunswickers think less of their logging and shipbuilding industries than they do of the *French Magnetic Oil*.

Quebeckers intend getting Cardinal Taschereau to use it the next time he is sick.

Ontario people think that the reason Sir John A. Macdonald lives so long and keeps so well, is because he is continually using *French Magnetic Oil*.

Manitobans keep it on hand continually. In summer it is a sovereign remedy for mosquito and black-fly bites, and in a blizzard, cures frost bites like magic.

North-West Territory people affirm that they would sooner pass through another half-breed rebellion than be without *French Magnetic Oil*.

British Columbians are but just learning its virtues. To them it is about as valuable as the direct tea trade with Japan and the trans-continental railway.

All Canada buys and uses French Magnetic Oil.

10th MONTH.

OCTOBER.—31 Days. Begins on Saturday.

PLANETS IN OCTOBER, 1887.—Uranus is in conjunction with the Sun on the 6th, Saturn near the Moon on the 11th and Venus stationary on the 12th. The next day Mars and the Moon are near each other, as are Mercury and Jupiter on the 14th. The Moon passes by Venus on the 14th, Uranus on the 15th, Jupiter on the 17th and Mercury on the 18th. Mercury is elongated East on the 27th, when he is well seen as an "evening star." On the 28th Venus is at her greatest brilliancy in the morning sky, and Saturn is 90° from the Sun on the 29th.

HURD'S HAIR VITALIZER.

For restoring Gray Hair to its original color, for promoting a Healthy and Luxuriant Growth, and imparting to it a Soft, Silky appearance.

A toilet luxury, it is of great medical value as well. With the most remarkable readiness it cures all the affections that are prone to afflict the scalp and hair.

It is the cleanest and best preparation ever offered in Canada of its kind, and renders the hair soft and glossy, stimulating the cells, whence the hair springs, to the most vigorous action, prevents dandruff from forming, cures sores on the head; strengthens in a marvellous manner the roots of the hair; prevents it falling out, and in cases where it has already fallen, causes a new growth to spring up.

It is a preservative, keeping the hair from fading, growing gray or white, and when the head has become white with old age, will restore the hair to the original lustre it bore in the first pride of youth.

It is the nicest preparation that is in use. Other dyes and such like articles so frequently vaunted by unscrupulous vendors bear no comparison to *Hurd's Hair Vitalizer* as regards every essential property necessary to a hair restorer.

Are you troubled about your hair? Then you are very foolish. There is no need for any concern on the point unless you are past the age at which hair will grow, which is unlikely. All you have to do under the circumstances is to purchase a bottle or two of *Hurd's Hair Vitalizer*, use it, as directed, and await results, which are likely to be marvellous in a short time.

Are you growing gray? Then you have no time to delay or to shilly-shally with bogus hair dyes, whose metallic poisons will eventually destroy your hair. You must get *Hurd's Hair Vitalizer* at once.

Are you becoming bald? Don't waste a moment. If you do, the cells whence your hair springs, may become dead, gone beyond the hope of resuscitation. What you must do—as early as possible—is to frequently apply to your tonsorial regions *Hurd's Hair Vitalizer*.

Are you sick of using trash on your head? If you are, you feel like trying something that is of value. In such cases you are recommended *Hurd's Hair Vitalizer*.

Is your hair thin? Take care, or it will get thinner and thinner, until there is not any left. The hair will not fall out and then grow again without assistance, whatever faith you may have in its so doing. Thin hair prognosticates baldness in a short time, and if you are not particularly prepossessed in favor of a barefooted head you will get *Hurd's Hair Vitalizer*.

Is your hair brashy? You can cure it by applying *Hurd's Hair Vitalizer*.

Is it dry and harsh? *Hurd's Hair Vitalizer* will turn it to silky and soft, after a few applications.

Does your hair stick up like the quills on a fretful porcupine? Does it refuse to stay down, no matter how you comb, grease or brush it? It does. Then you are in need of a cure. This is to be found in *Hurd's Hair Vitalizer*.

Does your head itch? There must be some local inflammatory or irritating cause. Try the soothing and cooling properties of *Hurd's Hair Vitalizer* before tearing the skin off in a vain attempt to get relief.

Is your scalp diseased? *Hurd's Hair Vitalizer* is a foe to all diseases of the scalp. They cannot remain where it is applied a few times.

Is your hair faded? Then it is lucky you are where *Hurd's Hair Vitalizer* can be bought for money. Nothing so quickly restores gray and faded hair to rich brown or deep black as this.

Is your hair red? Perhaps you are a young lady, and have already lost one or two eligible chances of marriage owing to the flaming color of your hair. Beautiful in all else, your hair makes you repulsive to the sterner sex. Do not fret or despond when *Hurd's Hair Vitalizer* can be obtained almost everywhere. Your druggist will tell you that it readily darkens red hair, turning it to a beautiful auburn brown, winning to the masculine eye, and beautiful to behold.

Yes, you say, it is a hair dye, and will eventually ruin the hair by its use.

It is not a dye either, and will not injure, but on the contrary, strengthen and beautify the hair.

The magnificent tresses of some of the fair sex are admired and envied by their less fortunate sisters. Are you one of the envious ones? If so, you need not feel ashamed to own it, because it is natural to desire a wealth of rich locks. If you wish to emulate the richness and luxuriance of your rivals' tresses, the best thing for you to do is to apply *Hurd's Hair Vitalizer* as a remedy.

As a dressing for ladies' hair nothing equals it. The hair by its use is rendered soft, glossy and silken in appearance, and to the touch.

To restore the color, all that will be needed are applications for a week or two, when, although it is not a dye, it will have so stimulated the roots and color-glands of the hair, that faded, gray, light or red hair, will gradually have changed to a beautiful auburn or brown. If long continued, the hair will become almost or quite black.

To prevent hair falling out the glands must be rendered active. The inactive or diseased condition of the scalp must be done away with. A few applications of *Hurd's Hair Vitalizer* will restore the healthy action, promote a luxurious growth and keep the hair from falling.

To prevent baldness—for baldness when the hair is entirely gone through old age and the roots decayed cannot be cured—*Hurd's Hair Vitalizer* will excite the torpid glands to activity, and produce a new growth even on the heads of persons well on in years.

It may be some days, even weeks, before the new growth begins to show itself, and persistence in the application of *Hurd's Hair Vitalizer* is consequently of the utmost importance.

But show itself it will, and then you should avoid using a brush more than necessary, but instead, sponging the scalp with soft water, and gently pressing the head with the fingers, to increase the circulation of the blood beneath.

Are you troubled with dandruff? It is curable. *Hurd's Hair Vitalizer* is the best known cure.

To get rid of dandruff, that unhealthy condition of the scalp which will ultimately destroy the roots of the hair, unless checked by *Hurd's Hair Vitalizer*, the hair should be frequently washed in cool water, and the *Vitalizer* applied.

PLANETS IN NOVEMBER, 1887.—Neptune is near the Moon on the 2nd, and Saturn near the Moon on the 7th. Jupiter is in conjunction with the Sun on the 8th. The Moon passes by Mars on the 10th; Venus on the 11th; Uranus on the 12th; Jupiter on the 14th and Mercury on the 15th, the latter planet being at Inferior Conjunction—behind the Sun—on the 17th, when Saturn is "Stationary." Neptune reaches opposition and is overhead at midnight on the 21st; Jupiter and Mercury being together on the 22nd, and Uranus and Venus on the 24th.

To cure eruptive scalp diseases *Hurd's Hair Vitalizer* is of the greatest benefit. Its cooling and soothing properties are essential to the subjugation of irritation; it also removes every obstruction from the pores, thus quickening and increasing the circulation, promoting the growth of the hair, keeping the scalp cool and clean, and restoring it to its natural health.

To preserve the hair so that it will be dark and glossy right into advanced old age, the head should be washed frequently and the scalp kept very clean. Those whose occupations lead them to remain in factories or workshops for many hours at a time, should pay careful attention to the hair.

Dust and dirt to an alarming degree will cling to it, and clog up the pores of the skin, spoiling the scalp and conducing to a rapid decay of the forces that contribute to a luxuriant growth of hair.

It is in such cases that the need of a cleansing article is severely felt. The need is supplied in *Hurd's Hair Vitalizer*.

The want of washing the head produces disease, the scalp losing its tone. After washing, the hair should be thoroughly dried with a coarse towel, a soft hair brush may also be used, after which, *Hurd's Hair Vitalizer* should be applied to promote and stimulate the secretions that naturally give the hair vitality and color.

All who desire a pleasant, harmless dressing for the hair, or an effective remedy for diseases peculiar to the hair and scalp, may rely on *Hurd's Hair Vitalizer* being an entirely trustworthy preparation.

Ladies past their prime, whose hair has begun to turn gray, find nothing so effective as a restorative as *Hurd's Hair Vitalizer*.

Gentlemen of sixty years and over, whose white heads and gray beards have been turned brown and their appearance reduced twenty years in age, know the great efficacy of *Hurd's Hair Vitalizer*.

A scientifically prepared article, *Hurd's Hair Vitalizer* is composed of the most choice and delicate, yet potent essences.

Entirely free from mineral substances which render many preparations for the hair dangerous and worse than useless, *Hurd's Hair Vitalizer* always proves beneficial when applied, as well as wholesome, effectual and safe.

It never fails to obtain the approval of those who make a fair trial of its merits.

To properly preserve the hair, it should be remembered that the covering of the head ought not to fit too closely, because, just as the lungs, the scalp needs, and must have, if it is to continue in a healthy state, pure air.

Bangs are blamed for doing injury to the hair. Yet they often set off a face that is otherwise uninteresting, and for children and young persons are quite attractive. If the hair suffers through excessive "banging" the practice should be discontinued for a time, and *Hurd's Hair Vitalizer* used as a restorative.

Continued crimping or tightly binding, is injurious, since both tend to prevent the unchecked flow of the oily fluid which colors and nourishes the hair.

Great attention has been paid to the hair since the remotest ages of antiquity. It has always been one of the chief glories of womanhood. How humiliating then it must be, when the beautiful girl is just about to enter society and captivate all hearts with her regal beauty, when just at the most important epoch of her life, her beautiful silken hair begins to lose its color, to fall out and grow thinner and thinner every day. What shall she do

retire entirely from fashionable society and grow prematurely bald, or use *Hurd's Hair Vitalizer* and retain her position as the beauty of the home and visiting circle?

Short, stumpy hair amounts to almost a disease with some. The head is covered, but it is with hair of a disagreeable hue, which refuses to grow over an inch or so in length. Shaving the head is often resorted to in vain, but the use of *Hurd's Hair Vitalizer* never fails in such cases.

Gentlemen's whiskers and moustaches are often luxuriant, and the beard will give an impressive appearance to the face. Sometimes disease or decay attacks these excellencies of the male face, and with, or without reason, the beauty becomes an actual disfigurement. Here it is that the *Hair Vitalizer* plays an important part.

It is very effective in restoring the color and appearance, as well as promoting the growth of hair on the face.

The eyebrows sometimes fall out and become quite thin. The *Vitalizer* may be applied with advantage to the arches above the eyes, which will soon again be covered with hair.

In treating the whiskers, moustaches or beard, more frequent applications of *Hurd's Hair Vitalizer* will be necessary than when restoring the color of the hair on the scalp, owing to the hair of the whiskers and beard being coarser and changing its color more slowly.

Rub them every night with the *Vitalizer* and afterwards tie them up, covering with a piece of silk until the morning. This will not fail to restore and beautify.

The secret of perpetual youth may not be in *Hurd's Hair Vitalizer*, but nothing retards the appearance of growing age and supposed consequent feebleness, more than the youthful look imparted to the person by a glossy, dark head of hair, whatever the real age.

The strength of Samson is reported to have lain in his hair, and when it was shorn off, his great muscular activity and power departed from him.

This shows it to be useless—at least in many cases—to cut hair that is falling off short, because Samson's, until it again grew, was a source of weakness to him rather than strength. What a pity the strong man in his affliction had not known of a remedy like *Hurd's Hair Vitalizer*! He might then have never been captured, much less tortured and made sport of by the Philistines, those cruel butchers of a bygone age.

What a blessing that in the present day we have a remedy for the hair equal to *Hurd's Hair Vitalizer*.

All that now remains to be said is to give a few general directions for the use of this restorative to persons about to apply it for the first time.

Directions for use. After well shaking the bottle, wet a sponge with *Hurd's Hair Vitalizer*, and completely saturate the hair and scalp, then rub the hair thoroughly with the fingers until it has been equally distributed. Do this every other day until the hair has resumed its natural color. After that, once a week is sufficient to keep it soft and silky. To restore whiskers to their original color, a daily application must be made (they being coarser) until the natural color appears, after that twice a week. If a new growth of hair is desired, first rub the hair briskly with the hands. Do this every day, and apply *Hurd's Hair Vitalizer* immediately after, rubbing it well in, and a vigorous growth will follow in due time. If applied only as a dressing, once or twice a week, as the hair demands. Price 75 cents.

12th MONTH.

DECEMBER.—31 Days. Begins on Thursday.

PLANETS IN DECEMBER, 1887.—Venus reaches her greatest elongation West of the Sun on the 2nd. Jupiter is near Mercury on the 4th, and Saturn is alongside the Moon on the 5th. Mercury is well placed for seeing in the early morning about the 6th. The Moon passes Mars on the 8th, Uranus on the 9th and Venus on the 11th, when the latter planet is in Perihelion. Jupiter is close to the Moon on the 12th, and Mercury near Luna on the 13th. On the 21st the Sun enters Capricorn, and Winter begins. Mars is in Aphelion—farthest from the Sun on the 26th, and Neptune close to the Moon on the same day.

DR. WILSON'S WORM LOZENGES.

Old wives say that all children are necessarily subject to worms, and that these parasites when they occur are of small moment.

This is a mistake, about as incorrect as the statement that boils in maturity are an evidence of robust health. All grown persons should be without boils and all children without worms. Where worms do occur, the persistent use of *Dr. Wilson's Worm Lozenges* will eradicate them and effectually prevent their return.

That they cause much annoyance, especially in the intestines of children, is well known, but just the remedy to get them out is not so well understood. Without doubt there is nothing better, if equal, to *Dr. Wilson's Worm Lozenges*.

Little children suffering from other disorders are frequently dosed for worms by their unthinking elders and much harm done. It is therefore important that the symptoms attending worms in the intestines should be fully described. When sure that worms are present give *Dr. Wilson's Worm Lozenges*.

Those most subject to worms usually have a light, fair skin, flesh soft and flabby, enlarged abdomen, legs and arms comparatively small. There is a great disposition to the production of mucus.

Catarrh, mucous diarrhoea and mucous vomiting are frequently present. These conditions, in fact, are the danger signals which indicate worms in children.

These conditions must be corrected, first by using *Dr. Wilson's Worm Lozenges* to expel and eradicate the worms from the bowels, and secondly, by giving *Dr. Wilson's Tonic and Sarsaparilian Elixir* to strengthen the system and leave no possibility for the development of worms through weakness and debility.

Worm fever is one of the most distressing symptoms attending worms. It is often quite violent in its nature, the pulse being very rapid, the heat great. It is noticeable for being an unsteady fever; there are sudden starts and twitches, and unless cured by *Dr. Wilson's Worm Lozenges*, the child will become weaker and weaker until it falls a prey to the first disease that attacks it.

Plain diet is a necessity; worms are often introduced into the stomach by unwholesome foods. Meat may be given once a day, no pastry, cake, preserves or candies, just substantial, nourishing food, and nothing more. With the *Worm Lozenges* as an immediate remover, the worms will pass off in the evacuations.

Itching at the anus is usually the result of ascarides or pinworms. *Dr. Wilson's Worm Lozenges*, together with an injection of an ounce of sweet oil, will bring them away at once.

When the worms are away, keep them away. A second return subjects the impaired organs of the child to a yet greater strain, and it sometimes happens that worm fever is followed with fits, convulsions or epilepsy.

Perfectly harmless, *Dr. Wilson's Worm Lozenges* cannot hurt the most delicate constitution.

Perfectly pure, it is impossible that *Dr. Wilson's Worm Lozenges* should have any other than a most beneficial result.

Perfectly palatable, not even the most fastidious child will refuse to take *Dr. Wilson's Worm Lozenges*.

Perfectly safe, no other lozenge or comfit has given such universal satisfaction as the *Worm Lozenges* of *Dr. Wilson's* preparation.

The highest medical authorities have declared themselves in favor of this medicine.

Hundreds of testimonials have been received as to its great efficacy.

Thousands of children have had their health restored and their lives saved by it.

Millions of worms irritating and debilitating to the children of Canada, have been expelled by its use.

Mothers, on you devolves a great responsibility. The future Premier of the Dominion, its leading scientist, poet, artist or merchant, may be at present lying in your baby's cradle.

Think of it, a mind which may control thousands of its fellows, may be forming under your hands. Only by perfect health can perfect brain development take place, and the mind takes its disease most frequently from a diseased body. If your little one is troubled with the loathsome disease, worms, it is ten chances to one that its lot in life will be altered, its ambition thwarted, its energies dampened, all through an imperfect digestion and nutrition because of the parasites infesting its inside. These should be removed at any cost, and *Dr. Wilson's Worm Lozenges* are the proper thing to do it with.

Some will say that the worms are of little or no consequence and that the child will naturally "grow out of them." Will it? That it might do so is just possible, but in ninety-nine cases out of every hundred, unless treated, the child suffering from worms will go from bad to worse.

A proper worm medicine is the best remedy, not imbecile waiting to see what will follow. What will follow unless something is done are first sickness and then death. Surely it will be better to administer the palatable *Worm Lozenges* offered your child by *Dr. Wilson* than to let the little sufferer die.

It should be explained that sometimes the worms do not come away whole. They frequently do, but if the worms were high up in the small intestines, they would be dissolved in the juices pertaining to that part of the body, and cast off with the feculent matter. But if the worms were lower down in the larger intestines they would then come away whole whether alive or dead. In either case, the relief resulting to the patient is the same.

My child will not take the lozenges or any other medicine is the foolish reply of mothers, and I consequently do not like to use force to administer a remedy for what may be but a mythical disease after all. But if worms are there, the disease is not mythical, besides.

It is a mother's duty to act for her child. The child is not a competent judge of what is good or bad for its case, and the mother is alone responsible.

There is no use shirking the duty; mothers, if your children have worms, it is you who are responsible. It is you, and you alone whose place it is to give them *Dr. Wilson's Worm Lozenges*.

No other lozenges have been so carefully prepared, no other lozenges are as efficacious, no other lozenges are as reliable, in fact, no other lozenges can be in any way compared to *Dr. Wilson's Worm Lozenges*.

If others are offered, refuse them.

DR. WILSON'S HERBINE BITTERS.

The Great Anti-Bilious Remedy.

Constitutions differ, some are stronger than others. To the strong Dr. Wilson offers his famous *Anti-Bilious and Preserving Pills*; for those of weaker and less powerful digestions he has prepared a magnificent tonic remedy known as *Herbine Bitters*.

Alcohol, which is largely the basis of the vile and trumpery nostrums sold under the name of "Bitters" in Canada, does not enter in any shape or form into Dr. Wilson's *Herbine Bitters*.

It can therefore be safely given to the weakest without the least fear of its raising the temperature of the body to an abnormal pitch, or unduly exhilarating the animal spirits and nervous system as is the case in alcoholic bitters.

Experience shows undeniably that Dr. Wilson's *Herbine Bitters* have in them great blood purifying and life giving powers.

After many years increasing popularity, Dr. Wilson's *Herbine Bitters* still has no rival in the Canadian market.

Its action is safe, sure and speedy, simple and yet vigorous. It is fast becoming the favorite medicine, and has a magnificent future before it.

Pure blood, the eradication of disease, restoration of tone and strength to the overworked and jaded system, are some of the results of taking Dr. Wilson's *Herbine Bitters*.

It leads the world for promoting digestion, curing headache, toning up the system, as well as for increasing the vital powers.

It is a tonic, as well as a purgative, it purifies the blood, puts new strength into the liver and kidneys, builds up the nervous system and restores lost health. *Herbine Bitters*, in fact, is the great restorer.

The proper remedies for the cure of disease are not vile minerals, not fit to drench a horse with, but curative and invigorating herbs, such as are used in the preparation of Dr. Wilson's *Herbine Bitters*.

However drowsy or languid one may feel, the famous *Herbine Bitters* perfected by Dr. Wilson will cure.

Fevers, malaria, all kinds of bilious troubles, every kind of blood impurity are removed from the system by Dr. Wilson's *Herbine Bitters*.

Keep your digestion perfect, so that the chyle is made properly and the food properly assimilated by doses of Dr. Wilson's *Herbine Bitters*.

Nervousness is a frequent ailment, especially amongst ladies. It is entirely removed by taking Dr. Wilson's *Herbine Bitters*.

Years of health can be added to life by judicious doses of Dr. Wilson's *Herbine Bitters*.

No opium, no poison of any kind whatever is contained in Dr. Wilson's *Herbine Bitters*.

To get well you must use Dr. Wilson's *Herbine Bitters*. When you are well you will keep well if you continue its use.

The best family physician is Dr. Wilson's *Herbine Bitters*, it is the great preventer of disease, and accordingly stands at the head of the list of family remedies. No family should think of doing without it.

The young and old of both sexes find Dr. Wilson's *Herbine Bitters* exactly suited to their cases. It contains the secret of good health and pure blood.

To restore the appetite, promote digestion,

and renew the enjoyments of life and being, nothing is so effective as Dr. Wilson's *Herbine Bitters*.

Men of knowledge prepare these *Bitters* for the market, and every bottle may be relied on. Dr. Wilson's *Herbine Bitters* is not put up by uneducated men.

For the diseases which afflict womankind Dr. Wilson's *Herbine Bitters* has no superior on earth.

For scrofula, and the most troublesome skin diseases, use Dr. Wilson's *Herbine Bitters*.

Sick headache finds its master in Dr. Wilson's *Herbine Bitters*.

Constipation relaxes its hold when attacked by Dr. Wilson's *Herbine Bitters*.

Dyspepsia yields up the ghost and dies at the resolute onslaughts of Dr. Wilson's *Herbine Bitters*.

Rheumatism finds itself unequal to the task of withstanding Dr. Wilson's *Herbine Bitters*.

Liver complaints haven't the least show where Dr. Wilson's *Herbine Bitters* make their appearance.

Women's lives have been saved by using Dr. Wilson's *Herbine Bitters*.

Children's troubles sink into insignificance when Dr. Wilson's *Herbine Bitters* are brought to bear upon them.

Temperance people need not hesitate to take Dr. Wilson's *Herbine Bitters*. They are prepared specially for total abstainers, and contain no alcohol.

Malarial and bilious fevers may be cured by the famous *Herbine Bitters* of Dr. Wilson.

Strength and life are the results of taking Dr. Wilson's *Herbine Bitters*.

Thousands are slain every year by King Alcohol. The temperance *Herbine Bitters* of Dr. Wilson has saved thousands.

Invalids acknowledge that Dr. Wilson's *Herbine Bitters* is their truest and best friend.

One bottle will convince the most sceptical of its great worth. It speaks for itself and does not even need advertising.

A family medicine in every sense of the word no family in Canada should be without it, it is so very useful, so reliable and so easy to take. Those least fond of medicine find no difficulty in taking all that is necessary of Dr. Wilson's *Herbine Bitters*.

Health and its blessings are one of the great results achieved by those who choose the way course of taking Dr. Wilson's *Herbine Bitters* their ailments. As a restorative it stands unrivalled.

Very many are the friends of Dr. Wilson's *Herbine Bitters*, in fact, they have already become immense host. Scarcely any other proprietary medicine has met with such an extensive sale and patronage.

Sure and invaluable is the general testimony and the fame of Dr. Wilson's *Herbine Bitters* continues to grow.

The conquerors of kingdoms, the Cæsars, Alexanders, Napoleons and Bismarcks, have no overcome so many subjects as Dr. Wilson's *Herbine Bitters* has cases of disease.

The territory of the Dominion, larger than that of the United States, is not one whit too large for the spread of the fame of Dr. Wilson's *Herbine Bitters*.

An almost universal remedy, it enters within it the life-giving, healing principle, thousands in the days of old, sought so often and worked at so long, but failed to obtain the secret of.

Children's diseases are numerous, in fact, early childhood is usually nothing but a succession of infantile complaints. These are best checked, cured or prevented entirely, as the case may be, by doses of *Dr. Wilson's Herbine Bitters*.

Worms lurk in the living bodies of almost every person, young, old, rich and poor. *Dr. Wilson's Herbine Bitters* will drive them out.

Theory does not enter into the reasons whereon *Dr. Wilson's Herbine Bitters* bases its claims. It has a wonderful record of many years marvellous success to back it up.

Practice has made perfect the *Herbine Bitters* of *Dr. Wilson*. There is in consequence nothing in the medicinal way to be compared with them.

Why let your loved ones languish in sickness with such a tonic as *Dr. Wilson's Herbine Bitters* within reach?

Why allow that dear child to suffer when all that it needs is a few doses of *Dr. Wilson's Herbine Bitters*?

Why permit your wife to drag around, scarcely able to place one foot before the other, when her complaint would yield at once to *Dr. Wilson's Herbine Bitters*.

Why is your husband so sallow, so short of temper, so ungenial. He used not to be so. Recommend, and see that he takes *Dr. Wilson's Herbine Bitters*. It will make a great change.

Why is your friend uncourteous and ungenial just now when he used to be all kindness and brotherly affection? There must be a reason for it. You wonder if you have offended. Perhaps you have, but it is more likely you have not. He is sick poor fellow. His bilious and nervous system has become deranged. Why not persuade him to take a few doses of *Dr. Wilson's Herbine Bitters*? They would most likely make "Richard himself again."

Everyone has a hero, and hero-worship is one of the most common things in human life. Heroes are various, and some think this one great, others that. All unite in praising *Dr. Wilson* for his famous *Herbine Bitters*.

Alexander the Great conquered a world, and then sighed because he could not go where other worlds were to be conquered. *Dr. Wilson* with his *Herbine Bitters* conquers disease, which is far better.

Julius Caesar, at the height of Imperial success, subjugated Gaul and overran Britain. *Dr. Wilson's Herbine Bitters* are more powerful than Julius, they subjugate the human system, restoring it to perfect health.

Alfred the Great propounded just laws and was a public benefactor. *Dr. Wilson* discovered the laws which produced a perfect medicine and in giving the *Herbine Bitters* to the world became a greater benefactor than Alfred.

William the Norman overran England, and stole the Saxon's birth-right. *Dr. Wilson* overran the whole of the list of most beneficial remedies, finally stealing from nature the secret of concocting the *Herbine Bitters*.

Shakespeare was a bard of the highest order, and his name and works will forever remain. His chief trait was creative power. *Dr. Wilson* also had this trait. He created *Herbine Bitters*.

George the third is said to have been the greatest monarch that ever lived, because he was the founder of the American Republic. *Dr. Wilson* was equally great or greater when he gave the people of Canada *Herbine Bitters*.

George Washington is called the "Father of his Country," although he did not do as much for the healing of the sick as *Dr. Wilson* when *Herbine Bitters* were perfected.

Napoleon was a very bilious man. Had he been less so he might have grieved less over his reverses, or, perhaps, never been driven from Moscow or defeated at Waterloo. *Herbine Bitters* were not known in his day.

Nelson scored grand victories at Copenhagen, the Nile and Trafalgar. He was a man of poor constitution, had but one eye and one arm. Supposing him with his full faculties and his system strengthened by *Herbine Bitters*, what might he not have accomplished?

Lincoln led the United States safely through her most troublous times to victory and peace. *Dr. Wilson* leads the troubled, jaded sufferer up from misery to happiness and health. This he accomplishes with *Herbine Bitters*.

The surest, safest and most perfect remedy is *Dr. Wilson's Herbine Bitters*. In large bottles, 25 cents each.
